Product Description:

One of the standout features of this product is its NFC support. This Android terminal POS machine is equipped to handle NFC TypeA&B card, Mifare card, and Felica card. Additionally, it is ISO/EC14443 and ISO 15693 compliant, ensuring that it is compatible with a wide range of devices.

Another impressive attribute of this Android POS product is its battery life. With 35 hours of battery life, this product can keep up with even the busiest of businesses. No more worrying about running out of battery in the middle of a transaction!

Scanning capabilities are also an important feature of any POS system, and this Android POS lottery terminal does not disappoint. Its 2D scanner can support 1D and 2D codes scanning, making it easy to scan barcodes and QR codes.

In addition, this Android POS product comes with TMS (Terminal Management System) capabilities. This means that you can easily manage and update your devices remotely, saving you time and effort.

Memory is also an important consideration when looking for a POS system, and this Android POS lottery terminal delivers. It comes with 2GB RAM +16GB ROM or 3GB RAM + 32 GB ROM, giving you plenty of space to store data and apps.

Overall, this Android POS product is a great choice for businesses looking for a reliable and efficient point of sale system. Its NFC support, long battery life, scanning capabilities, TMS capabilities, and ample memory make it a standout choice in the market.
