Connectivity:	Wi-Fi, Bluetooth, 4G
Printer:	58mm Printer
Storage:	16GB / 32GB
NFC:	NFC Support TypeA&B Card, Mifare Card, Felica Card; ISO/EC14443 And ISO 15693 Compliant
Weight:	350g
Device Management:	Cloud Management Platform
Payment Methods:	NFC, QR Code
Suitable Users:	Software Provider, POS Hardware Wholesaler, End User
SDK:	Free SDK Offered For Software Integration
Battery Life:	35 Hours

Applications:

Heimi H10 is an Android POS product that is widely used in various industries such as retail, hospitality, and entertainment. With its compact design and portability, it is suitable for different occasions and scenarios.
For small businesses, the Heimi H10 is an ideal android POS lottery terminal. It can be used for ticket sales, lottery, and other similar applications. The 58mm printer allows for quick and easy printing of tickets. The compact size of the terminal makes it easy to carry around, and it can be used in different locations such as convenience stores, gas stations, and supermarkets.
The Heimi H10 is also a great android POS portable hand terminal for restaurants and cafes. It can be used for tableside ordering and payment processing, which can improve efficiency and customer satisfaction. The lightweight design of the terminal makes it easy for servers to carry around, and the 5.5-inch screen size is large enough to display the menu and order details.
The Heimi H10 can also be used as small android POS terminals in various industries. It can be used for inventory management, sales tracking, and other applications. The free SDK offered for software integration allows for customization and integration with different software systems. The App Store also offers different apps for clients to choose from, which can enhance the functionality of the terminal. With CE, FCC, and RoHS certifications, clients can be assured of the quality and safety of the Heimi H10. The minimum order quantity is one, and the price can be negotiated. The packaging details are 1 piece in one box, and 10 pieces in one carton. The delivery time for samples is 3-7 working days, and bulk orders can be discussed. Payment terms can be T/T or L/C, and the supply ability is 20000 pcs/month.

Customization:

Handheld Android POS terminals can be customized with additional hardware accessories, such as external barcode scanners, cash

drawers, and customer displays.

Durability and Portability:

Built to withstand the rigors of daily use, these terminals are lightweight and portable, making them ideal for use in various environments, from small shops to large retail stores and outdoor markets.
