Product Description

Rubber seals protect against water, oil and dirt.

Rubber seals added to the edges of the paper bin, charging port, and earphone port help prevent water, oil and dirt damages. Even in a restaurant with a lot of oily smoke and water stains, it can protect the device for continuous and stable operations.

Product Description:

The Mobile POS Terminal Handheld is available in three different RAM options, 1GB, 2GB, and 3GB, so you can choose the option that best suits your business needs. The device also has various ROM options, 8GB, 16GB, and 32GB, which provide ample storage space for all your business data.
