Product Description:

Our Mobile POS product has a sleek design and is equipped with a multi-point touch capacitive screen for ease of use. It supports Type-C, OTG, and 3.5mm Earphone Jack interfaces, ensuring compatibility with a range of devices. Additionally, it has Nano SIM *2 and MicroSD *1 slots, making it easy for you to manage your data and transactions.

Our Mobile POS product comes with three RAM options - 1GB, 2GB, and 3GB - to provide the performance and speed you need. Whether you need to process transactions quickly or manage a high volume of data, our product can meet your needs.

Our Mobile POS product is not just a handheld lottery machine, but also a handheld POS with a printer. It comes equipped with a thermal printer, allowing you to print receipts for your customers on the spot. This feature is especially useful for businesses that require immediate documentation of transactions.

We understand the importance of product reliability, which is why our Mobile POS product comes with a 1-year warranty. You can trust that your product will work seamlessly and efficiently throughout its life cycle, giving you peace of mind and the confidence to focus on your business operations.

Our Mobile POS product is also known as a mobile lottery POS terminal. It is the ideal solution for businesses that require mobility and versatility, such as those in the retail, hospitality, and entertainment industries. With its user-friendly interface and advanced capabilities, our Mobile POS product can help streamline your operations and improve customer satisfaction.
