Product Description

Designed by SUNMI.

Product Description:

The interface of this Mobile POS is designed to support Type-C, OTG, and 3.5mm Earphone Jack, making it compatible with different devices and accessories. The battery is removable and features a Lithium Polymer Battery with 7.7V/3500mAh, which is equivalent to 3.85V/7000mAh. This ensures long-lasting battery life that can last all day long without needing to be recharged.

The ROM of this Mobile POS can be customized to suit your needs. Choose from 8GB, 16GB, or 32GB of storage to store transaction data and other important information. You can also use this Mobile POS for a variety of different scenarios, including coffee shops, convenient stores, lottery stores, warehouses, and bakery shops.

Our Programmable Mobile POS Terminal with Printer is a portable POS with a printer that is perfect for businesses on the go. It is designed to make transactions easy and efficient, with a printer that can print receipts in seconds. Say goodbye to long queues and waiting times, and say hello to this top-of-the-line Mobile POS!

Applications:

The Sunmi V2S is a portable POS with a printer, making it ideal for mobile businesses such as food trucks, pop-up shops, and market stalls. Its fast print speed of up to 80mm/s ensures that transactions can be processed quickly and efficiently. The 58mm thermal printer can support both receipt and label print, making it versatile for different business needs.

The programmable mobile POS terminal with a printer is equipped with Nano SIM *2 and MicroSD *1 slots, enabling it to connect to the internet and store data. It also has a removable, lithium polymer battery with a capacity of 7.7V/3500mAh (equal to 3.85V/7000mAh) which can last for several hours of use. The device has 8GB/16GB/32GB ROM, providing ample storage space for data and applications. The Sunmi V2S is suitable for various product application occasions and scenarios. It can be used in retail stores, restaurants, cafes, and bars for processing payments and printing receipts. It is also ideal for mobile businesses, such as food trucks, market stalls, and pop-up shops, enabling them to process transactions on the go. The device can be used in inventory management, allowing businesses to keep track of sales, stock levels, and customer information. It is also useful for event management, enabling organizers to sell tickets and process payments at events.

Support and Services:

Our Mobile POS product comes with comprehensive technical support and services to ensure hassle-free usage and maximum efficiency. Our team of experts is always available to provide assistance with any technical issues or queries you may have.

We offer regular software updates to keep your Mobile POS up-to-date with the latest features and security patches. Our team also conducts regular maintenance and checks to ensure optimal performance and prevent any potential issues.
