## Product Description

### Using scenarios:

This is an all in one pos system with printer, NFC, touch screen ect. multiple functions. It can be used in many different using scenarios.

- 1, Convenience Store. This pos machine can use in convenience store, just scan or tap to pay, get the receipts, and go. Your customers would enjoy shopping in your store more with the quick payment experience.
- 2, Food truck. The D3mini pos system 58mm printer version with long battery run-time, specially designed for your on-the-go business. The battery in D3 MINI 58mm version can power the device and your operations. Less downtime, more sales.
- 3, Food stall. The smooth-running D3 MINI will help you take care of customers flocking to your busy stall and deliver an experience that both you and your customers would love.

### Product Description:

Our desktop POS system is lightweight and portable, weighing only 1.5kg, which makes it easy to move around as needed. The system features a touch screen, which is user-friendly and allows for quick and easy transactions.

The printer in this POS system is available in two options: 58mm and 80mm. This dual screen POS desktop printer is perfect for printing receipts and other important documents. The printer paper roll OD can accommodate both 50mm and 60mm paper rolls, which means that you won't have to worry about running out of paper in the middle of a transaction.

One of the most impressive features of our desktop POS system is the built-in battery. The 2600mAh battery is only available in the 58mm printer version, which offers added convenience and flexibility. You can take your POS system with you wherever you go and use it without worrying about finding a power source.

As a supplier of desktop touchscreen POS systems, we take pride in providing our customers with high-quality products that are designed to meet their needs. Our desktop POS system is user-friendly, efficient, and reliable, making it an excellent investment for any business.

If you're looking for a top-of-the-line screen POS desktop printer, our dual screen POS desktop printer is the perfect choice. With its touch screen, printer options, and built-in battery, this POS system is the ideal solution for businesses of all sizes. Contact us today to learn more about our desktop POS system and how it can help your business grow.
