Product Description

Product Description:

One of the key features of this product is its multiple ports. It has 3 USB 3.0 Type A Ports, 1 RJ11 Serial Port, 1 RJ12 Cash Drawer Port, 1 RJ45 LAN Port, 1 audio jack, 1 power port, and even a MicroUSB Debug Port (hidden). These ports provide flexibility in connecting different devices, making it easier to perform various tasks.

Another feature that sets this product apart is the print head lifetime. The Desktop POS Printer has a print head lifetime of 50km/150km, ensuring that you get the most out of your printer. With this feature, you can print receipts with ease and without any worries of the printer breaking down.

The Desktop POS system comes with a memory of 3GB RAM and 32GB ROM, which provides enough space to store all your data and applications. This feature makes it easy to access your data and perform tasks quickly.

The Desktop POS Machine also has a 10.1-inch 10-point capacitive touch display, which provides an excellent viewing experience. Additionally, it comes with a 2.4-inch seven-segment secondary display, which is perfect for displaying prices or other important information to customers.

For added convenience, the Desktop POS Printer comes with a built-in battery of 2600mAh (in 58mm Printer Version Only). This feature ensures that you can use the printer even when there is no power source nearby.

In summary, the Dual Screen POS Desktop Printer is a must-have for any business. It has multiple ports, a long-lasting print head, ample memory, and a great display. Additionally, the built-in battery is a game-changer, making it easier to use the printer anywhere. Get yours today and take your business to the next level!
