Product Description

Product Description:

This desktop POS product is powered by a Qualcomm Hexa-core processor that can reach speeds of up to 2.4GHz /1.9GHz. This means that it can handle even the most demanding applications with ease. The operating system is Android 13 Sunmi OS, which is a highly intuitive and user-friendly platform that makes it easy to manage your business.

The touch screen on this desktop POS product is highly responsive and accurate, making it easy to enter information and navigate menus. The printer on this device can handle both 58mm and 80mm paper, which means that you can print receipts, invoices, and other important documents with ease. This makes it an ideal pos desktop printer for businesses of all sizes.

In summary, the Retail All-in-One POS PC Desktop Dual Touch Screen with Printer is a high-quality and reliable pos desktop printer that is perfect for any business. With its powerful processor, intuitive operating system, and dual touch screen display, it is the ideal solution for managing your business efficiently and effectively.
