## Product Description

### Product Description:

The All-in-One Touch runs on the Android 13 Sunmi OS, which provides a user-friendly interface and allows for easy customization to suit your unique business needs. Plus, with two SIM card slots that support 1.8V/3.0V, you can easily switch between networks to ensure that you always have a reliable connection.

As a GMS certified product, the All-in-One Touch meets the highest standards for quality and reliability. This certification ensures that your POS system is secure, reliable, and compliant with industry standards.

One of the standout features of the All-in-One Touch is its built-in printer. With both 58mm and 80mm options, you can choose the printer size that best fits your business needs. This built-in printer eliminates the need for additional hardware and ensures that you can easily print receipts and other important documents.

Overall, the All-in-One Touch is one of the best POS systems all in one on the market. Its powerful network capabilities, user-friendly interface, and built-in printer make it a top choice for any restaurant looking to improve their operations and provide better service to their customers.

Product Name: All in one pos

Battery: Built-in Battery 2600mAh

Application: Convenient Store , Coffee Shop , Food Stall , Food Truck

GMS: GMS Certified

Screen Size: 10.1 Inch

Auto cutter: 80mm Printer With Auto Cutter

Our All in one pos product is perfect for businesses such as convenient stores, coffee shops, food stalls, and food trucks. With a 10.1 inch screen size and built-in battery of 2600mAh, you can take this all in one touch Android restaurant pos system anywhere. The 80mm printer with auto cutter ensures smooth and efficient printing. Additionally, our product is GMS certified and comes with pos software for retail, making it one of the best Android dual screen pos systems all in one touch on the market.

## Applications:

The D3mini comes with a built-in battery of 2600mAh, which makes it highly portable and easy to carry around. It is a touch screen POS system that makes it easy for users to navigate through the various applications and features. The scanner is built-in and is able to read 1D/2D barcodes with ease.

The D3mini is certified by CE, FCC, RoHs, and MSDS, making it a safe and reliable product. The minimum order quantity is 2 units and the price can be negotiated based on the order quantity. The packaging details come in a carton package. The delivery time is between 4-8 business days and payment can be made via T/T or L/C. The supply ability is at 15000 pieces per month, making it a readily available product for businesses that require it.

The D3mini is highly customizable with the option of having a customized logo, making it easy for businesses to brand the POS system to fit their business' identity. It comes with a built-in network of 2G, 3G, and 4G, making it easy to connect to the internet and access various applications. The WiFi is available in both 2.4GHz and 5GHz, allowing for fast and reliable connectivity.

The Sunmi D3mini all-in-one touch POS system can be used in various scenarios, including retail stores, restaurants, supermarkets, and other service-oriented businesses. It is highly efficient and can be used to handle tasks such as inventory management, sales tracking, and customer management. The D3mini is ideal for businesses that require a reliable and user-friendly POS system that can be customized to fit their specific business requirements.
