Product Description

Product Description:

The All in One Retail POS System is a versatile solution designed for businesses that require a reliable and efficient point of sale system. It is the perfect solution for a wide range of businesses, including convenience stores, coffee shops, food stalls, and food trucks. The system offers a range of features that make it ideal for small businesses looking for an all in one solution.

The system is equipped with 2G, 3G, and 4G network capabilities, making it easy to stay connected and process transactions quickly. It also comes with a dual SIM card slot that supports 1.8V/3.0V, allowing you to switch between carriers easily and stay connected even in areas with poor network coverage.

The system is GMS certified, meaning it meets Google's compatibility requirements and can access the Google Play Store and other Google services. This makes it easy to install and use a wide range of apps that can improve your business operations.

The All in One Retail POS System comes with a built-in scanner that can read both 1D and 2D barcodes, making it easy to track inventory and manage your stock levels. The scanner can quickly and accurately read barcodes, reducing the time it takes to process transactions and improving your overall efficiency.

If you are looking for a POS system hotel with printer all in one, the All in One Retail POS System is an excellent choice. It comes with a built-in printer that can print receipts and other important documents quickly and easily. This makes it easy to keep track of transactions and manage your business finances more effectively.

The All in One Retail POS System is one of the best pos systems all in one on the market today. It is a reliable, efficient, and versatile solution that can help businesses of all sizes improve their operations and increase their profitability. If you are looking for a top-quality POS system for your business, the All in One Retail POS System is definitely worth considering.

Applications:

Convenient Store

The Sunmi D3mini is perfect for use in a convenient store. With its compact size and built-in printer, it saves space and provides all the functionality that a store owner needs. The 58mm and 80mm built-in printer options make it easy to print receipts and keep track of transactions. Its Android 13 Sunmi OS provides a user-friendly interface that is easy to operate even for inexperienced staff.

Coffee Shop

For a coffee shop, the Sunmi D3mini is an all-in-one cashier machine POS system that provides an easy and efficient way to manage transactions. With its 80mm printer with auto cutter, it can quickly print receipts and provide customers with a seamless payment experience. The dual screen design is perfect for displaying menu options and promotional offers, which can help increase sales and customer satisfaction.

Food Stall

The Sunmi D3mini is a great choice for a food stall. Its compact size and built-in printer make it easy to use in a confined space. The customization option for the logo makes it easy to promote the business and create a professional image. The Android 13 Sunmi OS provides fast and efficient operations, allowing for quick transactions and a seamless customer experience.

Food Truck

The Sunmi D3mini is perfect for a food truck. With its dual screen design, it can display menu options and promotional offers, which can help increase sales. The built-in printer options make it easy to print receipts and keep track of transactions. Its Android 13 Sunmi OS provides a user-friendly interface that is easy to operate even for inexperienced staff.

The Sunmi D3mini is a versatile all-in-one touch screen POS system that is perfect for various business scenarios. It is CE, FCC, RoHs, and MSDS certified, ensuring that it meets the highest quality standards. The minimum order quantity is 2, and the price is negotiable. It comes in a carton package and has a delivery time of 4-8 business days. Payment terms include T/T and L/C, and the supply ability is 15000 pieces per month. Its customization option for the logo makes it easy to promote the business and create a professional image. Choose the Sunmi D3mini for a reliable and efficient POS system that meets all your business needs.

Support and Services:

The All-in-One POS product offers comprehensive technical support and services to ensure that customers have a seamless experience. Our support team is available to assist with any issues or questions that may arise during installation, setup, or operation of the product. We also offer ongoing maintenance and repair services to keep the product functioning at optimal levels. In addition, our team can provide training and education to help customers fully utilize the features and capabilities of the product.

Packing and Shipping:

Product Packaging:
The All in one POS product will be packaged in a sturdy cardboard box to ensure safe transportation. The box will include the POS system, power adapter, and any necessary cables or accessories. The product will be wrapped in protective packaging material to prevent any damage during shipping.

Shipping:
The All in one POS product will be shipped via a reputable courier service to ensure timely and safe delivery. Shipping costs will be calculated based on the destination and shipping speed selected by the customer. Customers will be provided with a tracking number so they can monitor their package's progress. Delivery times may vary depending on the destination and shipping method selected.
