Product Description

Product Description:

One of the standout features of our all-in-one POS system is its card reader. This system supports TypeA&B Card, Mifare Card, Felica Card, and complies with ISO/IEC 14443, ISO 15693 Standards. This means that you can easily and securely process payments from various credit and debit cards, making it easier for your customers to pay for their purchases.

Our all-in-one POS system also comes with a sim card slot that supports 2*SIM and 1.8V/3.0V. This allows you to easily connect to the internet and ensure that your business is always connected. Additionally, our product is GMS certified, which means it meets the high standards set by Google for mobile devices.

We understand that branding is important in retail, and that's why our all in one POS system offers customization options. You can easily have your logo added to the system, which will help promote your brand and create a professional look.

Another great feature of our all-in-one POS system is its built-in scanner for 1D/2D barcode reading. This makes it easy to scan products and quickly process sales. Plus, the system comes with POS software for retail that is user-friendly and easy to use, making it simple to train your staff and get them up to speed in no time.

Finally, our all in one POS system comes with a thermal printer that is perfect for printing receipts and other important documents. The printer is fast, efficient, and produces high-quality prints, which means you can quickly and easily provide your customers with the documentation they need.

If you're looking for an all-in-one POS system that can help you streamline your retail business operations, our product is the perfect solution. With its advanced features, customization options, and POS software for retail, you can be sure that you'll have everything you need to take your business to the next level.

Features:

Product Name: All in one pos

Screen Size: 10.1 Inch

Processor: Qualcomm Hexa-core

Sim card slot: 2*SIM, Support 1.8V/3.0V

Net work: 2G&3G&4G

GMS: GMS Certified

This All in one pos system is perfect for restaurant businesses. It is a full set pos system manufactured by pos manufacturers and includes all the necessary features to run a successful business.

Applications:

One of the key features of the Sunmi D3mini is its 80mm Printer with Auto Cutter. This feature makes it an ideal choice for businesses that require a reliable and fast printing solution. Furthermore, the system comes with 2 SIM card slots that support both 1.8V and 3.0V, making it easy to stay connected and process transactions on-the-go.

As a CE, FCC, RoHs, and MSDS certified product originating from China, the Sunmi D3mini is a high-quality option that is built to last. It can be ordered in a minimum quantity of 2 and comes in a carton package. The delivery time for this product is 4-8 business days, and payment can be made through T/T or L/C.

With a supply ability of 15000 pieces per month, the Sunmi D3mini is a reliable and efficient choice for businesses of all sizes. Whether you're looking to set up an Android restaurant POS system all in one touch, or simply need an all-in-one POS system for your business, the Sunmi D3mini is an excellent choice.
