Product Description

Product Description:

Our POS terminal SDK provides seamless integration options, making it easy to integrate with your existing systems and software. Our

free SDK ensures that you can set up your POS terminal quickly and efficiently, saving you time and money.

Our dual-screen POS terminal offers improved functionality and convenience for your business operations. With a second display screen, you can easily display promotions, advertisements, or even process transactions more efficiently.

Equipped with 4GB of RAM and 64GB of ROM, our POS terminal ensures that your system operates smoothly and efficiently. Never worry about slow processing times or lagging systems with our high-quality hardware.

Our POS terminal also features multiple ports, including USB, LAN, and RJ12 Cash Drawer Port, making it easy to connect to a variety of peripherals and hardware. With these features, you can easily customize your system to fit your specific business needs.

In summary, our POS terminal is a powerful and customizable option for businesses of all sizes. With its OEM capabilities, free SDK, dual-screen functionality, and high-quality hardware, this terminal is the perfect addition to any business looking to streamline its operations and improve efficiency.

Applications:

One of the standout features of the Sunmi D3pro is its touch screen, which is both responsive and accurate, making it easy to navigate menus and input data quickly and efficiently. The device also comes equipped with a range of ports, including USB, LAN, and RJ12 Cash Drawer PORT, making it easy to connect to other devices and peripherals.

Whether you're a small business owner or a large retailer, the Sunmi D3pro is a great investment that will help you streamline your operations and improve your bottom line. With a minimum order quantity of just one unit, it's easy to get started with this powerful POS terminal. And with its CE, FCC, and RoHS certifications, you can be sure that you're investing in a high-quality device that meets the highest standards of safety and performance.

In addition to its impressive hardware specs, the Sunmi D3pro also comes with a free MDM system that makes it easy to manage and update your device remotely. And with a supply ability of up to 20,000 pieces per month, this device is ideal for businesses of all sizes.

So if you're looking for a top-of-the-line POS terminal that delivers exceptional performance and reliability, look no further than the Sunmi D3pro. With its advanced touch screen, versatile ports, and powerful Android OS, this device is sure to meet all your needs and exceed your expectations.

Order now and take advantage of our competitive pricing and fast delivery times. With packaging details of 1pc/carton and a delivery time of just 4-7 working days, you can have your new Sunmi POS terminal up and running in no time. Payment terms include T/T and L/C, so you can choose the option that works best for your business.

Support and Services:

The POS Terminal product technical support and services include:
- Assistance with installation and setup of the product
- Troubleshooting of any technical issues
- Regular software updates to ensure optimal performance
- Product training and user manuals
- Warranty and repair services for any hardware malfunctions

Packing and Shipping:

Product Packaging:
The POS Terminal product will be carefully packed in a sturdy cardboard box to ensure safe transportation and handling. The box will be sealed with adhesive tape to prevent any damage or tampering during transit.
Shipping:
The product will be shipped via a reliable courier service to the address provided during the checkout process. Shipping times may vary depending on the destination, but we will provide a tracking number so you can keep track of your delivery. Please ensure that the delivery address is correct and someone is available to receive the package upon delivery.
