Product Description

Product Description:

This terminal runs on the Android 13 Sunmi OS, bringing you the latest in software technology. This operating system is optimized for use in commercial environments, making it perfect for catering, lottery, retail, and other business scenarios.

Powered by a Qualcomm Hexa-core CPU, this terminal is capable of running multiple applications simultaneously, ensuring that your business runs smoothly without any hiccups. With a clock speed of up to 2.4GHz, the terminal can handle even the most demanding tasks with ease.

In addition, this terminal is equipped with a Wifi Module that supports both 2.4GHz and 5GHz frequencies and is compliant with IEEE 802.11 A/b/g/n/ac standards. This ensures that your business stays connected to the internet, allowing you to access cloud-based applications and services with ease.

Whether you're running a restaurant, retail store, or any other type of business, this terminal is the perfect solution. Its user-friendly interface, versatile software, and powerful hardware make it a must-have for any business looking to improve its efficiency and productivity.

At a competitive pos terminal price, this terminal is an affordable investment that will pay dividends for your business in the long run. So why wait? Upgrade your business with our terminal pos restaurant today and take your business to the next level.

Applications:

Retail stores: The Sunmi D3pro is an excellent choice for retail stores of all sizes. It can be used to process transactions quickly and securely, manage inventory, and monitor sales data in real-time. The POS terminal stand is sturdy and secure, providing a stable platform for the device.

Restaurants: The Sunmi D3pro is also a great option for restaurants and other foodservice businesses. Its user-friendly interface, combined with the POS terminal sdk, makes it easy to manage orders, process payments, and track inventory. The device is easy to clean and maintain, making it ideal for busy restaurant environments.

Hotels: The Sunmi D3pro can be used in hotels to manage room bookings, track guest purchases, and process payments. Its compact size and sleek design make it a great choice for reception desks and other areas where space is limited.

Supermarkets: The Sunmi D3pro is a perfect fit for supermarkets and other large-scale retail stores. Its high-speed processor and large memory capacity allow it to handle a high volume of transactions quickly and efficiently. The device is also equipped with a built-in scanner, making it easy to scan barcodes and manage inventory.

Customization: The Sunmi D3pro supports OEM and ODM customization, making it an excellent choice for businesses that want to add their logo or customize the device to meet their specific needs. The pos terminal price is negotiable, and the minimum order quantity is just one unit. The device is also certified with CE, FCC, and RoHs, ensuring its quality and safety.

Free MDM System: The Sunmi D3pro comes with a free MDM system, making it easy to manage multiple devices from a central location. This feature is particularly useful for businesses that operate multiple locations or have a large number of devices.

Language Support: The Sunmi D3pro supports more than 200 languages, making it ideal for businesses that operate in multiple countries or cater to a diverse customer base. The device is also equipped with a 2.4GHz & 5GHz, IEEE 802.11 A/b/g/n/ac wifi module, ensuring fast and reliable connectivity.

Supply Ability: The Sunmi D3pro has a supply ability of 20,000 pieces per month, making it an excellent choice for businesses of all sizes. Payment terms include T/T and L/C, and the delivery time is typically 4-7 working days. The device is also equipped with a sturdy and secure pos terminal stand, ensuring that it stays in place during transactions.

Conclusion: The Sunmi D3pro is a versatile and reliable POS terminal that is perfect for a wide range of businesses. Its advanced features and robust design make it an ideal choice for retail stores, restaurants, hotels, supermarkets, and more. With its support for OEM and ODM customization, free MDM system, and language support, the Sunmi D3pro is an excellent investment for any business looking to improve their point-of-sale operations.
