Applications:

One of the primary advantages of the Sunmi D3pro is its operating system. With Android 13 Sunmi OS, this desktop Android POS terminal is easy to use and highly customizable. You can install a wide range of apps and software programs to suit your specific business needs. Additionally, the device comes with a 10" customer display, which is plug-and-play and requires no assembly. This second screen is perfect for displaying promotions, advertisements, or other information to customers.

The Sunmi D3pro is also highly connective, with Wi-Fi, Bluetooth, and 4G capabilities. This makes it easy to connect to other devices and networks, and ensures that you can process transactions quickly and efficiently. Additionally, the device comes with NFC support, so customers can tap their cards on the glass to complete transactions quickly and easily.

Some of the best product application occasions and scenarios for the Sunmi D3pro include:

Retail stores: The Sunmi D3pro is an excellent choice for retail stores, as it is highly customizable and can be used to process transactions quickly and efficiently.

Restaurants: With its easy-to-use interface and customizable software, the Sunmi D3pro is an excellent choice for restaurants and other food service businesses.

Hotels: The Sunmi D3pro can be used in hotel lobbies or front desks to process payments quickly and efficiently, as well as to provide guests with information about their stay.

Mobile businesses: With its 4G capabilities, the Sunmi D3pro is an excellent choice for mobile businesses, such as food trucks or pop-up shops.

In terms of specifications, the Sunmi D3pro is CE, FCC, and RoHS certified, and has a minimum order quantity of 1. The price is negotiable, and the device comes packaged with one unit per carton. Delivery time for samples is typically 3-7 working days, while bulk orders will be discussed. Payment terms include T/T and L/C, and the supply ability is 20,000 pcs/month.
