| App Store:         | Different APPS In App Store For Client To Choose               |

Applications:

**Supermarkets:** The D3pro is an ideal choice for supermarket owners who want to streamline their checkout process. It is equipped with a 10" customer display that provides customers with a clear view of their transaction details, making it easier for them to verify their purchases. Its plug-and-play feature also eliminates the need for assembly, making it a convenient option for busy supermarket owners.

**Retail Stores:** The D3pro is also a great option for retail store owners who want to offer their customers a fast and seamless checkout experience. With its free SDK, software integration is a breeze, and different apps are available in the app store for clients to choose from. The D3pro also supports multiple languages, making it accessible to a wider audience.

**Restaurants:** The D3pro can also be used in restaurants to manage orders and payments. Its smart design and intuitive interface make it easy for servers to take orders, and its fast processing speed ensures that payments are processed quickly and efficiently.

**Small Businesses:** The D3pro is a versatile Android POS terminal that is suitable for a wide range of small businesses. Its compact design and easy setup make it a convenient option for businesses that have limited space, and its smart features help streamline the checkout process.

The Sunmi D3pro Smart Desktop Terminal is CE, FCC, and RoHS certified, ensuring that it meets the highest standards of quality and safety. It has a minimum order quantity of 1 and is priced to be negotiated. Packaging details include 1 piece in one carton, and delivery time for samples is 3-7 working days, with bulk orders to be discussed. Payment terms include T/T and L/C, and the D3pro has a supply ability of 20,000 pcs/month.

Overall, the Sunmi D3pro Smart Desktop Terminal is a versatile, high-quality, and easy-to-use Android POS terminal that is perfect for a wide range of applications. Whether you need a desktop Android POS terminal for your supermarket, retail store, restaurant, or small business, the D3pro is a reliable and efficient choice.
