Applications:

This dual-screen pos terminal android is designed to make business operations more efficient and hassle-free. It is equipped with a 15.6" FHD 1920*1080, 10-point Capacitive Touch Screen that provides clear and vivid visuals. The device also supports multiple languages, making it ideal for businesses that cater to international customers.

The Sunmi D3pro is perfect for restaurant scenarios as it can help streamline the ordering process. Its easy-to-use interface allows for quick and accurate order-taking, while its connectivity features such as Wi-Fi, Bluetooth, and 4G ensure that orders are transmitted seamlessly to the kitchen. Moreover, its 10" Customer Display serves as a second screen that can show customers their orders, promotional offers, and other important information.

For apparel stores, the Sunmi D3pro can help manage inventory and sales. Its dual-screen pos terminal android can display product information, prices, and other details, making it easier for customers to make informed decisions. Meanwhile, its connectivity features allow for real-time inventory updates and sales tracking.

The Sunmi D3pro is also ideal for jewelry shops. Its flat capacitive touch screen android pos terminal can display high-quality images of jewelry pieces, helping customers appreciate their beauty and intricacy. Its dual-screen pos terminal android can also show customers their purchases, complete with details such as price, weight, and other relevant information.

The Sunmi D3pro is available for purchase with a minimum order quantity of 1. Its price is negotiable, and it comes in a packaging of 1 piece per carton. Delivery time for samples is 3-7 working days, while bulk orders are to be discussed. Payment terms include T / T and L / C, and its supply ability is 20000 pcs per month.
