Product Description

Product Description:

The Android Supermarket POS Terminal is a powerful and versatile Android-based point of sale solution that offers a range of features designed to meet the needs of software providers, POS hardware wholesalers, and end-users in a variety of industries. With a 15.6" FHD 1920*1080, 10-point capacitive touch screen, this terminal provides a high-quality user experience, making it easy to use and navigate for customers and staff.

One of the standout features of this Android POS terminal is its compatibility with a wide range of apps, with different apps available in the app store for clients to choose from. This gives users the flexibility to customize their POS solution to suit their unique needs, whether they're using the terminal in a retail setting, a restaurant or bar, or any other business environment.

In addition to its app compatibility, this terminal also comes equipped with a terminal management system (TMS), which allows users to easily manage and monitor their devices remotely. This makes it a great choice for businesses with multiple locations or for those that need to keep a close eye on their devices from a centralized location.

Another key feature of the Android Supermarket POS Terminal is its 10" customer display, which is plug-and-play and requires no assembly. This display provides customers with a clear and easy-to-read view of their purchases, making it ideal for use in a variety of industries, including retail, hospitality, and more.

Whether you're a software provider, POS hardware wholesaler, or end-user, the Android Supermarket POS Terminal offers a powerful and flexible solution for your needs. With its high-quality display, app compatibility, TMS, and customer display, it's a versatile and reliable choice for use in a wide range of business environments, from retail stores to restaurants to sport betting shops and more.

Applications:

The Sunmi D3pro also comes with multiple connectivity options, including Wi-Fi, Bluetooth, and 4G. This ensures that you stay connected and can process transactions seamlessly. Additionally, it comes with an optional NFC tap on glass to support feature, making contactless payments a breeze.

The Sunmi D3pro is suitable for a wide range of businesses, including supermarkets, sports betting, and other retail stores. Its 10-inch customer display is plug-and-play and requires no assembly, making it easy to set up and use right out of the box.

The Sunmi D3pro is CE, FCC, and RoHS certified, ensuring that it meets the highest standards of quality and safety. You can order as little as one unit and enjoy prompt delivery, with a sample turnaround time of 3-7 working days. Bulk orders can be discussed, and payment can be made via T/T or L/C. With a supply ability of 20,000 pcs per month, you can be sure to get your orders on time and in the best quality.

So whether you need an Android sport betting POS terminal, an Android 13 POS terminal, or an Android supermarket POS terminal, the Sunmi D3pro is the perfect solution for you. Get in touch with us today to discuss your needs and get a quote.

Support and Services:

Our Android POS product comes with comprehensive technical support and services to ensure the smooth operation of your business.

Our team of experts is available to provide assistance with installation, setup, and troubleshooting. We also offer regular software updates to ensure that your POS system is always up-to-date with the latest features and security patches. Additionally, we provide training for your staff to ensure they are comfortable using the POS system and making the most of its capabilities. Our goal is to help you maximize the efficiency and profitability of your business with our Android POS solution.
