Product Description

Product Description:

One of the standout features of the Smart Display POS 10 inch Android Tablet is its charging cradle, which provides a convenient and secure way to charge the device when not in use. This ensures that the device is always ready for use and eliminates the need for messy cables or wires.

The NFC reader on the device is compatible with Type A & B cards, Mifare cards, ISO/IEC 14443, QPBOC3.0, EMV, Paypass, and Paywave, making it a versatile option for businesses that accept a variety of payment methods. This smart handheld POS accepts credit and debit cards, NFC payments, and QR code payments, providing a range of payment options for customers.

In addition, the Smart Display POS 10 inch Android Tablet comes equipped with a built-in 58mm thermal printer, which allows businesses to print receipts and invoices quickly and easily. This feature is especially useful for businesses that require a hard copy of transactions, such as restaurants or retail stores.

The device also supports a variety of card types, including magnetic stripe cards, IC cards, and NFC cards, making it a versatile option for businesses that require a range of payment methods. The device is easy to use and features a user-friendly interface that simplifies the payment process for both customers and employees.

In conclusion, the Smart Display POS 10 inch Android Tablet is a powerful and versatile point of sale system that is ideal for businesses of all sizes. With its advanced features and capabilities, including a charging cradle, NFC reader, built-in thermal printer, and support for multiple payment methods and card types, this smart POS terminal is a must-have for any business looking to streamline payment processing and enhance customer experience.

Applications:

One of the standout features of the Sunmi P2 is its dual-screen design, which allows for easy navigation and enhanced customer interaction. The 5.5" HD touchscreen with a resolution of 1440x720 provides a clear and vibrant display that is perfect for showcasing products or promotions, while the built-in thermal printer ensures that receipts are printed quickly and efficiently. Whether you are running a small retail shop or a large restaurant, the Sunmi P2 is the ideal smart portable pos terminal for your needs. Its compact and lightweight design makes it easy to take on the go, while its robust construction ensures that it can withstand the rigors of daily use.

Thanks to its support for a wide range of payment methods, including NFC and EMV, the Sunmi P2 is perfect for use in a variety of scenarios. Whether you need to process credit card payments, mobile payments, or even contactless payments, this smart pos terminal dual screen has you covered.

With its CE, FCC, RoHS, MSDS, EMV, Paypass, and PCI certifications, you can rest assured that the Sunmi P2 meets the highest standards of quality and safety. And with a minimum order quantity of just 10 units, you can easily outfit your entire business with these powerful and versatile terminals.

So if you are looking for a smart pos terminal that can help streamline your payment processing and enhance your customer experience, look no further than the Sunmi P2. With its powerful processor, dual-screen design, and support for a wide range of payment methods, this terminal pos smart is the perfect choice for businesses of all sizes.

Order yours today and experience the power and versatility of the Sunmi P2 for yourself!
