Product Description

Product Description:

The Smart POS terminal is a versatile device designed for use in banks and merchants to collect payments. The device is equipped with a Cortex-A53, Quad-core, 1.5GHz processor which ensures a fast and efficient performance. This handheld mobile payment POS terminal is an ideal tool for anyone who needs to accept payments on the go.

The Smart POS terminal supports multiple languages including English, Chinese, Spanish, French, German, etc. This makes it ideal for use in different countries and regions. The terminal is also capable of supporting various card types including Magnetic Stripe Cards, IC Card, and NFC Card. This ensures that customers can pay using their preferred payment method.

This handheld 5.5-inch POS terminal machine smart is compact and lightweight, making it easy to carry around. It is perfect for use in small businesses such as food trucks, pop-up stores, and mobile shops. The device comes with a built-in printer that can print receipts quickly and easily.

For those who require a larger screen, the 11.6-inch tablet POS smart is also available. This device provides a larger display which makes it easier to read and navigate. It is ideal for use in larger businesses such as retail stores, restaurants, and hotels.
