Applications:

The Sunmi P2 smart POS machine is a handheld smart POS terminal with a printer, designed to make payment collection seamless for banks and merchants. The device is manufactured in China and certified by CE, FCC, RoHs, MSDS, EMV, Paypass, and PCI to guarantee safety and quality.
The smart POS machine is equipped with a capacitive touch screen that enables easy navigation and operation, running on Android 11 Go Sunmi OS. This feature ensures that the device can handle multiple tasks simultaneously without lagging.
The Sunmi P2 smart POS terminal with smart IC card reader supports multiple payment options such as mobile wallet, bank card, and NFC. This makes it easy for customers to pay using their preferred payment method, enhancing the overall shopping experience.
The Sunmi P2 smart POS machine is an ideal choice for various occasions and scenarios such as supermarkets, restaurants, cafes, retail stores, and more. It is lightweight, compact, and easy to carry, making it convenient for merchants to collect payment on the go.
The minimum order quantity for the Sunmi P2 smart POS machine is 10 pieces, and the price is negotiable. The packaging details are 1pc/box, 10pcs/carton, and the delivery time is 4-7 working days. Payment terms accepted are T/T and L/C, and the supply ability is 15000 pieces per month.
In summary, the Sunmi P2 smart POS machine is a versatile handheld mobile payment POS terminal that offers easy payment collection with multiple payment options. Its compact design and lightweight make it easy to carry, making it an ideal choice for various occasions and scenarios.

Support and Services:

The Smart pos product offers technical support and services to ensure optimal performance and user satisfaction. Our team of experts is available to provide assistance with installation, setup, and troubleshooting of the product. We also offer ongoing maintenance and updates to keep the product running smoothly and efficiently. In addition, we provide training and resources to help users get the most out of their Smart pos system. Our goal is to deliver exceptional customer service and support to ensure a seamless and reliable experience with our product.

Packing and Shipping:

Product Packaging:
The Smart POS product will be packaged in a sturdy cardboard box to ensure safe transportation. The box will be sealed with tape and labeled with the product name, model number, and shipping address.
Shipping:
Once the order is confirmed, the Smart POS product will be shipped within one business day. The shipping method will depend on the customer's location and preferences. Standard shipping usually takes 3-5 business days, while expedited shipping takes 1-2 business days. Customers will receive a tracking number via email to track their package.
