Product Description

Product Description:

The Smart POS product is powered by a Cortex-A53 quad-core processor that delivers lightning-fast performance. This ensures that payment transactions are processed quickly and efficiently, providing a seamless experience for both the user and the customer.

Our Smart POS product is a versatile device that can be used in banks or by merchants to collect payment. With its dual-screen feature, it is easy to view payment details and make necessary adjustments. The 11.6 inch tablet POS smart is perfect for busy merchants who require a reliable and efficient payment collection system.

The NFC reader on our Smart POS product is capable of reading Type A & B cards, Mifare cards, and supports ISO/IEC 14443, QPBOC3.0, EMV, Paypass, and Paywave protocols. This ensures that customers can make payments using their preferred method, making the payment collection process even more convenient.

In conclusion, the Smart POS product is a game-changer in the payment collection industry. Its powerful processor, built-in 58mm thermal printer, and NFC reader make it a versatile and reliable device. Whether you are a bank or a merchant, our Smart POS terminal dual screen is the perfect solution for all your payment collection needs.
