## Applications:

The Sunmi P2 is a perfect solution for businesses that require a reliable and efficient payment POS device. With a minimum order quantity of 10 units, the device is suitable for small and medium-sized businesses. The price of the device can be negotiated, depending on the order quantity. The packaging details of the device are 1pc/box, 10pcs/carton, and the delivery time is 4-7 working days. The payment terms for the device are T/T and L/C, and the supply ability is 15000 pieces per month.

The Sunmi P2 is equipped with a 5.5-inch touch screen display, which provides a user-friendly interface for customers. The device features EMV chip and PIN, NFC payments, and a receipt printer, which makes it suitable for various payment scenarios. The device is available in two variants, one with 1GB RAM + 8GB ROM and the other with 2GB RAM +16GB ROM. The device is powered by a Cortex-A53, quad-core processor, ensuring that it can handle high volume transactions with ease.

The Sunmi P2 is a reliable financial POS device that provides a secure payment experience for customers. The device is powered by an AC power adapter, which ensures that it has a stable power source. The device is suitable for various payment scenarios such as supermarkets, retail stores, and restaurants. The device is designed to meet the needs of businesses that require a reliable and efficient payment POS device.
