## Product Description

### Product Description:

Featuring a large 5.5 inch touch screen display, the Payment POS Terminal is easy to use and provides clear and detailed information for both customers and merchants. The front-facing 0.3MP FF camera is optional, while the rear-facing 5MP AF camera comes with a flashlight and 1D/2D barcode scanning capabilities, making it easy to scan and process payments from any type of card reader payment POS terminal.

One of the standout features of this payment POS terminal is its NFC capabilities, which allow for quick and easy contactless payments. Whether you're using the terminal for retail transactions, bank payments, restaurant orders, or lottery ticket sales, the Payment POS Terminal is the perfect solution for your payment processing needs.
