Product Description

Removable LiPo battery
7.6V/2540mAh
3000mah (Optional)

Product Description:

The Payment POS Product is designed to accept a variety of payment methods, including EMV chip and PIN, NFC payments, and more. This makes it the perfect pos machine for Visa card payment, as it can handle all types of transactions with ease.

In addition, the Payment POS Product comes equipped with a receipt printer, allowing you to print out receipts for your customers on the spot. This feature is essential for businesses that want to provide excellent customer service and ensure that their customers have a record of their transactions.

The Payment POS Product also features a removable battery, which provides you with the flexibility to use the device wherever you need it. The battery is a 7.6V/2540mAh battery, which ensures that the device has enough power to keep up with your business's demands. Another great feature of the Payment POS Product is its camera. The device features a front-facing 0.3MP FF camera (optional) and a rear-facing 5MP AF camera with a flashlight. Additionally, the device features 1D/2D barcode scanning capabilities, making it an ideal choice for businesses that need to scan barcodes for inventory or other purposes.

Of course, security is always a top concern when it comes to payment processing, and the Payment POS Product delivers in this area as well. The device is PCI, EMV, and Paypass certified, ensuring that it meets the highest standards for security in the industry.

Finally, the Payment POS Product is powered by a Cortex-A53, quad-core processor, which ensures that it can handle even the most demanding payment processing tasks with ease. With its powerful processor, versatile payment options, and top-of-the-line security features, the Payment POS Product is the ultimate pos payment terminal for businesses of every size.

This payment pos system includes a card reader payment pos terminal, and can also be used as a payment taxi pos terminal.

Applications:

The Sunmi P2 is ideal for retail stores, restaurants, cafes, and other businesses that require a reliable and fast payment POS system. The POS terminal payment NFC feature allows customers to make quick and easy payments using their mobile phones, making it a convenient option for busy customers on the go.

The Sunmi P2 is also a great option for taxi companies looking for a reliable payment POS terminal. The payment taxi pos terminal feature allows for easy payment processing and can speed up the payment process for both the driver and the customer, making it a convenient option for both parties.

The Sunmi P2 is equipped with a removable battery (7.6V/2540mAh) that allows for extended use without the need for constant charging. The card reader features EMV, Magstripe, and Contactless capabilities, making it compatible with a wide range of cards and payment methods.

The Sunmi P2 comes with two memory options: 1GB RAM + 8GB ROM and 2GB RAM + 16GB ROM. This allows for flexible storage options depending on the business needs. The camera features a front-facing 0.3MP FF (optional) and a rear-facing 5MP AF + Flashlight, making it suitable for barcode scanning and other payment-related tasks.

The Sunmi P2 is packaged with 1pc/box and 10pcs/carton, with a minimum order quantity of 10. The price is negotiable, and delivery time is between 4-7 working days. Payment terms are T/T and L/C, and the supply ability is 15,000 pieces per month. The Sunmi P2 is a reliable and secure option for businesses looking for a flexible and efficient payment POS system.
