Product Description

Product Description:

One of the standout features of this data collector is its optional UHF Trigger Handle, which makes it even more versatile and effective. Whether you're scanning barcodes, collecting data in a warehouse, or performing other tasks, this handle will make your job easier and more efficient.

In addition to its impressive hardware, this data collector is also GMS certified, which means it meets the high standards set by Google in terms of performance and security. This certification is a testament to the quality and reliability of this product, and it provides peace of mind for users who rely on it for their daily work.

Whether you're in the field, in the warehouse, or in a retail environment, the Handheld PDA Data Collector is an indispensable tool that will help you get the job done right. Its rugged design ensures that it can withstand even the most challenging conditions, while its Android operating system provides a familiar and intuitive interface that makes it easy to use.

So if you're in need of a reliable and versatile data collector that can handle all of your needs, look no further than the Handheld PDA Data Collector. With its powerful hardware, optional UHF Trigger Handle, and GMS certification, this product is the perfect choice for anyone who demands the best.

Features:

Product Name: Data Collector

Trigger handle: Trigger Handle For Option

Battery: Removable Polymer Lithium Battery, 3.8V/5000mAh

Feature: Handheld Android 11 Data Collector Data Collection Methods: Agent-based, Agentless

Optional: UHF Trigger Handle Perfect for credit card data collection

Compatible with Bluetooth barcode data collection

Technical Parameters:

Processor	Cortex-A53, Octa-core
Operation System	Android 11 Sunmi OS
IP Standard	IP68 Protection Standard
NFC	Support NFC
Battery	Removable Polymer Lithium Battery, 3.8V/5000mAh

Scanner Reading Ability	Read Scratched, Stained, Crinkled Barcodes Up To 1m Away Even On The High Shelves In Your Warehouse
Item Name	Handheld Pda
Feature	Handheld Android Data Collector
Optional	UHF Trigger Handle
Product	Pda Data Collector

This data collector surveying device is equipped with a Cortex-A53, Octa-core processor and runs on Android 11 Sunmi OS. It has an IP68 protection standard and supports NFC. The device is powered by a removable polymer lithium battery with a capacity of 3.8V/5000mAh. It also has a scanner that can read scratched, stained, crinkled barcodes up to 1m away, even on high shelves in your warehouse. The device is a handheld Android data collector with an optional UHF trigger handle. This handheld data collector is also known as a Pda Data Collector.

Applications:

The Sunmi L2ks is an Android PDA that serves as a data collector handheld device. It is designed to help users collect data in a variety of settings. Here are some of the product application occasions and scenarios:

Inventory Management: The Sunmi L2ks can be used to scan barcodes and track inventory levels. This makes it ideal for use in retail environments where inventory management is critical.

Asset Tracking: The handheld data collector can be used to track assets such as equipment and tools. This can be useful in construction sites or other settings where equipment must be tracked and managed.

Field Service: The Sunmi L2ks can be used by field service technicians to track service calls, enter data, and collect signatures. This makes it a useful tool for companies that provide field services such as HVAC repair or plumbing.

Healthcare: The device can be used for healthcare applications such as patient tracking, electronic medical records, and medication management. This makes it an essential tool for healthcare providers.

Manufacturing: The Sunmi L2ks can be used to track production processes, scan barcodes, and manage inventory. This makes it an essential tool for manufacturing and warehouse settings.

Event Management: The device can be used for event management, such as ticket scanning, guest check-in, and tracking merchandise sales. This makes it a useful tool for concert venues, trade shows, and other events.

The Sunmi L2ks is a versatile tool that can be used in many different applications. It is a handheld data collector that is lightweight and easy to carry. Its Android 11 Sunmi OS and optional memory configurations of 3GB RAM+32GB ROM, 4GB RAM+64GB ROM, or 6GB RAM+128GB ROM make it a powerful device that can handle a variety of tasks. It is certified with CE, FCC, RoHs, and MSDS, and has a minimum order quantity of 1. The price is negotiable and it is available with trigger handle for option and NFC support. The device is packaged with 1pc/box and 15pcs/carton. Delivery time is 4-7 working days and payment terms are T/T or L/C. Sunmi L2ks has a supply ability of 20000 pieces per month.

Support and Services:

Our Data Collector product comes with comprehensive technical support and services to ensure optimal performance. Our experienced team of technicians is available to assist with any issues or questions you may have regarding the product. Our technical support services include:

24/7 phone and email support

Remote troubleshooting and diagnostics

On-site repair and maintenance services

Product training and education

In addition to technical support, we also offer a range of professional services to help you get the most out of your Data Collector product: Installation and configuration services

Data migration and integration services

Customization and development services

Consulting and advisory services

Our goal is to ensure that your Data Collector product is running smoothly and efficiently, and that you are getting the most value out of your investment. Please do not hesitate to contact us if you require any technical support or professional services.

Packing and Shipping:

The data collector product will be packaged in a sturdy cardboard box with foam inserts to protect it during shipping. The box will be labeled with the product name, company logo, and handling instructions for the carrier.

The data collector product will be shipped via standard ground shipping unless otherwise specified. Shipping fees will be calculated based on the destination and weight of the package. Customers will be provided with a tracking number once the package has been shipped.
