Basic Information

- Place of Origin: China
- Brand Name: Sunmi
- Certification: CE , FCC , RoHs , MSDS
- Model Number: L2S pro
- Minimum Order Quantity: 1
- Price: to be negotiated
- Packaging Details: 1pc/box,15pcs /carton
- Delivery Time: 4 - 7 working days
- Payment Terms: T/T, L/C
- Supply Ability: 20000 pieces per month

Product Specification

- Scanner: Professional 2D Scan Engine
- Processor: Cortex-A53, Octa-core
- Scanner Reading Ability: Read Scratched, Stained, Crinkled Barcodes Up To 1m Away Even On The High Shelves In Your Warehouse
- Trigger Handle: Trigger Handle For Option
- Feature: Handheld Android Data Collector
- NFC: Support NFC
- Charging Base: Charging Base Optional
- Product: Pda Data Collector
- Highlight: **Rugged Android Data Collector, Trigger Handle Android Data Collector, Warehouse PDA Barcode Scanners**

Professional 2D scan engine

Product Description:

One of the most impressive features of our Pda Data Collector is its optional UHF Trigger Handle. This handle is designed to enhance the device's scanning capabilities, making it easier and faster to collect data, even from long distances. With this handle, you can easily scan barcodes and RFID tags, making it the perfect tool for inventory management, asset tracking, and more.

Our Pda Data Collector is powered by the latest Android 12 Sunmi OS, providing you with a user-friendly and intuitive interface that is easy to navigate and customize. This operating system is specifically designed to provide you with the performance and security you need to handle all your data collection needs with ease.

At the heart of our Pda Data Collector is a powerful Cortex-A53, Octa-core processor that provides you with lightning-fast performance and unparalleled efficiency. This processor ensures that you can collect and process data quickly and accurately, making it the perfect tool for data-intensive applications.

Our Pda Data Collector is also equipped with a removable polymer lithium battery that provides you with up to 5000mAh of power. This battery can be easily replaced, allowing you to extend the life of your device and keep it running smoothly for years to come. Whether you're working in the field or in the office, this battery is designed to keep up with your demanding needs.

In conclusion, if you're looking for a top-of-the-line Pda data collector that can help you streamline your data collection process, then our Pda Data Collector is the perfect solution. With its powerful processor, intuitive operating system, and optional UHF Trigger Handle, this device is the ideal tool for retail, logistics, healthcare, and manufacturing applications. So why wait? Order your Android 12 data collector today and take your data collection to the next level!

Features:

- Product Name: Data Collector
- Product: Handheld PDA Data Collector
- Charging Base: Optional Charging Base
- Trigger Handle: Trigger Handle For Option
- IP Standard: IP68 Protection Standard
- Screen: 5.5" HD Touch Screen
- Features: Data collector barcode scanner, handheld PDA, Android PDA

Technical Parameters:

NFC	Support NFC
Item name	Handheld Pda
IP standard	IP68 Protection Standard
Battery	Removable Polymer Lithium Battery, 3.8V/5000mAh
Operation system	Android 12 Sunmi OS
Screen	5.5" HD Touch Screen
Charging base	Charging Base Optional
Processor	Cortex-A53, Octa-core
Feature	Handheld Android Data Collector
Data Collection Methods	Agent-based, Agentless

Applications:

- The SUNMI L2s PRO Smart Mobile Terminal is perfect for various occasions and scenarios. Here are some examples:
 - Inventory Management
 - The SUNMI L2s PRO Smart Mobile Terminal can help businesses perform inventory management tasks with ease. It can scan barcodes and QR codes, which makes it perfect for tracking items and managing stock levels. With its NFC support, it can also read RFID tags and make inventory management even more efficient.
 - Point of Sale Transactions
 - The SUNMI L2s PRO Smart Mobile Terminal is also an excellent credit card data collector. It can read magnetic stripe cards and EMV chip cards, making it an ideal device for point of sale transactions. With its GMS certification, it can also run various payment apps, which makes it a versatile device for any business.
 - Asset Tracking
 - The SUNMI L2s PRO Smart Mobile Terminal can also help businesses track their assets. It can scan QR codes and RFID tags, making it easy to locate and identify assets. With its Android 12 Sunmi OS, it can also run various asset tracking apps to make the process even more efficient.
 - Supply Chain Management
 - The SUNMI L2s PRO Smart Mobile Terminal is also an excellent tool for supply chain management. It can scan barcodes and RFID tags, which makes it easy to track goods and packages. With its 3GB RAM+32GB ROM, 4GB RAM+64GB ROM, and 6GB RAM+128GB ROM memory options, it can store a lot of data and run various supply chain management apps.
 - With a minimum order quantity of 1 and a flexible pricing policy, the SUNMI L2s PRO Smart Mobile Terminal is perfect for businesses of all sizes. The packaging details include 1pc/box and 15pcs/carton, and the delivery time is 4-7 working days. Payment terms are flexible and include T/T and L/C. With a supply ability of 20,000 pieces per month, businesses can rest assured that their orders will be fulfilled on time.

Support and Services:

- Our Data Collector product comes with comprehensive technical support and services to ensure that you get the most out of your purchase. Our team of experts are available to assist you with any questions or issues you may encounter while using the product.
- Our technical support services include:
 - 24/7 phone and email support
 - Access to online resources such as user manuals and FAQs
 - Remote troubleshooting and problem resolution
 - Software updates and patches
- In addition to technical support, we also offer a range of professional services to help you optimize your use of the Data Collector product:
 - Installation and setup
 - Customization and integration with other systems
 - Training and education
 - Consulting and advisory services

Our goal is to ensure that you have a seamless and productive experience with our Data Collector product, and we are committed to providing the highest level of support and service to achieve that goal.
