

NFC Handheld Data Collector Removable Polymer Battery For Warehouse Scanning

Our Product Introduction

for more products please visit us on heimipos.com

Basic Information

- Place of Origin: China
- Brand Name: Sunmi
- Certification: CE , FCC , RoHs , MSDS
- Model Number: L2S pro
- Minimum Order Quantity: 1
- Price: to be negotiated
- Packaging Details: 1pc/box,15pcs /carton
- Delivery Time: 4 - 7 working days
- Payment Terms: T/T, L/C
- Supply Ability: 20000 pieces per month

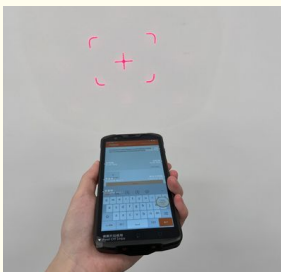

Product Specification

- Optional: UHF Trigger Handle
- Processor: Cortex-A53, Octa-core
- IP Standard: IP68 Protection Standard
- Feature: Handheld Android Data Collector
- Battery: Removable Polymer Lithium Battery, 3.8V/5000mAh
- NFC: Support NFC
- Scanner Reading Ability: Read Scratched, Stained, Crinkled Barcodes Up To 1m Away Even On The High Shelves In Your Warehouse
- Data Collection Methods: Agent-based, Agentless
- Highlight: **Removable Polymer Battery Handheld Data Collector**

Product Description

Product Description:

Our data collector boasts an impressive IP68 protection standard, ensuring that it can withstand even the toughest of environments. The 5.5" HD touch screen is both responsive and durable, making it easy to use even in harsh conditions.

The removable polymer lithium battery provides a long-lasting power source, with a capacity of 3.8V/5000mAh. This gives you the confidence to use our data collector for extended periods without worrying about running out of battery.

Our data collector supports NFC technology, allowing you to easily transfer data between devices. This feature is particularly useful for those working in industries such as logistics and transportation, where efficient data transfer is crucial.

In addition, our data collector is equipped with a professional 2D scan engine, making it the perfect tool for scanning barcodes and QR codes. This feature is invaluable for those working in retail, warehousing, and logistics industries.

Overall, our portable data collector provides an efficient and reliable solution for all your data collection needs. Its durable design, long-lasting battery, and advanced features make it the perfect tool for those working in a variety of industries. Invest in our data collector today and experience the benefits for yourself.

Features:

Product Name: Data Collector

Operation System: Android 12 Sunmi OS

Processor: Cortex-A53, Octa-core

Battery: Removable Polymer Lithium Battery, 3.8V/5000mAh

GMS: GMS Certified

Memory:

3GB RAM+32GB ROM

4GB RAM+64GB ROM

6GB RAM+128GB ROM (optional)

Features:

Portable data collector

Movable data collector

Android 12 data collector

Technical Parameters:

Item name	SUNMI L2s PRO Smart Mobile Terminal
Screen	5.5" HD Touch Screen
Scanner	Professional 2D Scan Engine
Scanner reading ability	Read Scratched, Stained, Crinkled Barcodes Up To 1m Away Even On The High Shelves In Your Warehouse
Feature	Handheld Android Data Collector
Charging base	Charging Base Optional
Memory	3GB RAM+32GB ROM , 4GB RAM+64GB ROM , 6GB RAM+128GB ROM (optional)
Trigger handle	Trigger Handle For Option
Optional	UHF Trigger Handle
Battery	Removable Polymer Lithium Battery, 3.8V/5000mAh

Applications:

The data collector is suitable for a wide range of application occasions and scenarios. It can be used for inventory management in warehouses, logistics, and retail stores. The device can scan barcodes and QR codes, making inventory management faster and more efficient. It is also suitable for asset tracking, where it can be used to track and manage assets such as equipment and tools.

The Sunmi L2S pro data collector can also be used for order picking and delivery management in e-commerce and logistics. It can scan barcodes and confirm the correct items for order picking, and also track the delivery process. The device is also suitable for field service management, where it can be used to collect data on field service operations, track work orders, and manage equipment maintenance. The Sunmi L2S pro data collector supports both agent-based and agentless data collection methods, making it versatile and flexible for different scenarios. It also comes with a trigger handle, which is optional, and can be used for easier scanning and data collection. The device is powered by a removable polymer lithium battery with a capacity of 3.8V/5000mAh, which provides long battery life and ensures uninterrupted operation.

The packaging details for the Sunmi L2S pro data collector include 1pc/box and 15pcs/carton. The delivery time is 4-7 working days, and the payment terms include T/T and L/C. The supply ability is 20000 pieces per month, making it suitable for large-scale projects and deployments.

In summary, the Sunmi L2S pro data collector is a versatile and reliable device that can be used for various data collection scenarios. It is an Android PDA handheld device that is certified with CE, FCC, RoHs, and MSDS, and comes with a professional 2D scan engine and a removable polymer lithium battery. The device supports both agent-based and agentless data collection methods and comes with a trigger handle for easier scanning. It is suitable for industries such as warehousing, logistics, retail, e-commerce, and field service management.

Support and Services:

Our Data Collector product comes with comprehensive technical support and services to ensure a smooth and hassle-free experience for our customers. Our dedicated team of experts is available to assist with any technical issues or questions you may have regarding the product. Our technical support services include:

24/7 technical support hotline

Email support

Online knowledge base and FAQ section

Remote assistance and troubleshooting

In addition to technical support, we also offer the following services to help you get the most out of your Data Collector:

Product installation and setup

Training and education

Product customization

Upgrades and updates

Our goal is to provide our customers with the highest level of support and service possible. If you have any questions or concerns, please do not hesitate to contact us.

Packing and Shipping:

Product Packaging:

The Data Collector product will be packaged in a sturdy, eco-friendly cardboard box. The box will be sealed with tape to ensure the product stays secure during shipping. Inside the box, the product will be wrapped in protective packaging material to prevent any damage during transit. The box will also include an instruction manual for the product.

Shipping:

The Data Collector product will be shipped via a reputable courier service to ensure safe and timely delivery. Customers can expect their product to arrive within 3-5 business days after placing their order. Shipping costs will vary depending on the destination and shipping method selected at checkout.
