

Digital Display Data Collector IP68 PDA Barcode Scanner With Waterproof

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Sunmi
- Certification: CE , FCC , RoHs , MSDS
- Model Number: L2KS
- Minimum Order Quantity: 1
- Price: to be negotiated
- Packaging Details: 1pc/box,15pcs /carton
- Delivery Time: 4 - 7 working days
- Payment Terms: T/T, L/C
- Supply Ability: 20000 pieces per month

Product Specification

- IP Standard: IP68 Protection Standard
- Name: Digital Display Data Collector
- Product: Pda Barcode Scanners
- NFC: Supports TypeA&B Card Mifare Card, Felica Card ISO/IEC 14443 And ISO15693 Compliant
- Microphone: 2* MIC
- Scanner: Professional Scan Engine (Optional Zebra& Honeywell)
- Charging Base: Charging Base Optional
- Processor: Octa-core Processor
- Highlight: **Digital Display Data Collector, IP68 Data Collector, Waterproof PDA Barcode Scanner**

Product Description

Product Description:

In addition to its camera, the Data Collector also features a professional scan engine that is compatible with optional Zebra and Honeywell scanners. This feature makes the Data Collector an ideal choice for businesses that require professional-grade scanning capabilities. The Data Collector is a versatile device that can be used for a wide range of applications. Its Android 11 operating system ensures that it is compatible with the latest apps and software, making it an excellent choice for businesses that require a reliable and up-to-date data collection device. The device also comes with two microphones, making it ideal for voice recording and other audio-related tasks. The Data Collector is designed to be rugged and durable, making it an excellent choice for use in industrial or outdoor environments. Its handheld design ensures that it is easy to carry and use, while its range controller cradle ensures that it can be easily charged and synced with other devices. Overall, the Digital Display Data Collector is an excellent choice for businesses that require a powerful, versatile, and reliable data collection device. Its range of features, including its camera, scanner, and microphones, make it an ideal choice for a wide range of applications.

Features:

Product Name: Data Collector

Battery:

Removable Polymer Lithium Battery, 3.8V/5000mAh

Non-removable Small Battery 60mAh (optional)

Trigger handle: Trigger Handle For Option

Scanner: Professional Scan Engine (Optional Zebra& Honeywell)

Microphone: 2* MIC

Product: Pda Barcode Scanners

A rugged android data collector, terminal pda data collector, and handheld data collector with a removable Polymer Lithium Battery and optional small battery. It also includes a trigger handle, professional scan engine, and 2 microphones.

Technical Parameters:

Model	Sunmi L2Ks
Charging base	Charging Base Optional
Name	Digital Display Data Collector
Using industrial	Widely Used In Warehouse For Stock Inventory, Used In Clothing Shop, Logistic Industrial
Camera	Rear: 13MP AF Front: 5MP FF Rear Camera For 1D / 2D Barcode Scanning
Operation system	Android 11 Sunmi OS
Scanner	Professional Scan Engine (Optional Zebra& Honeywell)
Processor	Octa-core Processor
Screen	4"HD, 800x480 Capacitive IPS
IP standard	IP68 Protection Standard

This handheld data collector is also available as a handheld NFC data collector and UHF data collector.

Applications:

The Sunmi L2KS is perfect for various application occasions and scenarios. It is ideal for use in inventory management, logistics, retail, healthcare, and many more industries. Its versatility and durability make it suitable for use in both indoor and outdoor environments. This handheld NFC data collector comes with a 4" HD, 800x480 Capacitive IPS screen that allows for clear and easy viewing. It also has an IP68 protection standard, ensuring it can withstand harsh weather conditions. The device comes with two microphones, making it perfect for voice communication. Additionally, the trigger handle for option provides users with an easy way to scan products, further improving the efficiency of data collection tasks.

The Sunmi L2KS has a minimum order quantity of one, and the price is negotiable. The packaging details include 1pc/box and 15pcs/carton. The delivery time is 4-7 working days, and payment terms include T/T and L/C. The device has a supply ability of 20,000 pieces per month, ensuring it is readily available to meet your needs.

In conclusion, the Sunmi L2KS handheld NFC data collector is an excellent addition to any business requiring efficient and reliable data collection. Its robust design, high-quality screen, and various certifications make it an ideal choice for various application occasions and scenarios, both indoor and outdoor.
