Product Description

Product Description:

Our PDA Android UHF Data Collector comes with a powerful rear 13MP AF camera and a front 5MP FF camera that offers excellent picture quality, making it perfect for 1D / 2D barcode scanning. This feature makes it ideal for use in various industries such as warehouse stock inventory and clothing shops, as well as the logistic industrial sector.

In terms of storage, our device comes with two options: 2GB RAM+32GB ROM, and 2GB RAM+16GB ROM. This means you can choose the right device that suits your business needs.

This handheld data collector is designed to withstand the rigors of industrial use. It is widely used in the warehouse for stock inventory and in clothing shops, as well as the logistics industry. Our PDA Android UHF Data Collector is built to last, with sturdy construction and durable materials that can withstand harsh working environments.

Features:

Product Name: Data Collector

Name: Digital Display Data Collector

Trigger handle: Trigger Handle For Option

Battery:

Removable Polymer Lithium Battery, 3.8V/5000mAh

Non-removable Small Battery 60mAh (optional)

Processor: Octa-core Processor

IP standard: IP68 Protection Standard

Looking for handheld PDA prices? Check out our Data Collector product, which features a digital display, trigger handle, and an octa-core processor. It also has an IP68 protection standard and comes with a removable polymer lithium battery, as well as an optional non-removable small battery. Our PDA rug handheld is perfect for businesses that need a reliable and durable data collection device. Plus, our Data Collector runs on Android, making it easy to use and integrate with your existing systems.

Battery	Removable Polymer Lithium Battery, 3.8V/5000mAh Non-removable Small Battery 60mAh (optional)
Keyword	Pda Android 11
Screen	4"HD, 800x480 Capacitive IPS
Charging base	Charging Base Optional
Name	Digital Display Data Collector
Scanner	Professional Scan Engine (Optional Zebra& Honeywell)
Operation system	Android 11 Sunmi OS
Feature	Android Pda Barcode Scanner

Applications:

1, Logistics -- parcel sorting. Digitalize your sorting work — just use L2Ks to scan the moving parcel barcodes on the conveyor belts and get the parcel information displayed on the screen, and the high volume sound and vibration after each scan won't let you miss any parcel. The built-in 5000mAh battery and its lightweight and ergonomic features give your effortless UX even for a long time.

2, Warehousing -- Stock taking. Enhance your inventory efficiency with L2Ks. Still facing the tedious work of calculating ins and outs of various items? Use L2Ks to scan item barcodes in milliseconds to get the item name, inventory level and shelf number, etc. It also is durable, rugged, dust proof and features a high IP rating.

3, Grocery -- Item picking . L2Ks makes your picking work easy. Pickers can do item lookup and scan to fulfill the online orders with L2Ks, and the usually-hard-to-read barcodes and the harsh environment common in fresh food markets bring no troubles to the rugged L2Ks with a powerful scanner.

Customization:

Sunmi L2KS Digital Display Data Collector with Professional Scan Engine is an ideal solution for businesses looking for a PDA Android device that is capable of barcode scanning. The device comes with optional Zebra and Honeywell scanners and a charging base. The Sunmi L2KS Data Collector has been certified by CE, FCC, RoHS, and MSDS, ensuring safety and quality. The device has a minimum order quantity of 1 and a negotiable price. It is packaged with 1pc/box and 15pcs/carton, with a delivery time of 4-7 working days.

Payment terms for the Sunmi L2KS Digital Display Data Collector are T/T and L/C, with a supply ability of 20000 pieces per month. The device comes with 2* MIC for added convenience.

Support and Services:

The Data Collector product technical support and services include:

Installation assistance and troubleshooting

Configuration and customization guidance

Software updates and patches

Compatibility and integration support

Performance optimization and tuning

Data migration and backup assistance

Training and documentation resources

Our team of experts is dedicated to providing timely and effective support to ensure the smooth operation of your Data Collector product.

Packing and Shipping:

Product Packaging:

The Data Collector product comes in a sturdy cardboard box with the product name and image printed on the front. Inside, the product is securely packed with bubble wrap to prevent any damage during shipping.

Shipping:

The Data Collector product is shipped via standard shipping methods such as UPS, FedEx, or DHL. Shipping times may vary depending on the destination, but typically take 3-5 business days within the United States and 7-10 business days for international shipments.

Customers will receive a tracking number once the product has shipped to track their package.
