Product Description:

Our Payment Kiosk is equipped with advanced payment options that cater to the modern market. It supports QR Code Payment, allowing customers to make transactions through their mobile phones. Additionally, the kiosk can attach to a financial POS to support bank card payment, giving your customers more flexible payment options.

The kiosk comes with a 24" 1080×1920 FHD G + G Capacitive Screen that supports 10 touch points. This high-quality display ensures that your customers can easily navigate through the payment process, making transactions quick and easy.

Our Payment Kiosk also boasts an App Store Management feature, which allows you to install, update, and manage multiple apps easily. Additionally, it comes with a Kiosk Mode that restricts user access to specific applications, ensuring that the kiosk is used only for its intended purpose.

The kiosk has a variety of ports, including 1× Micro-USB Debug Port and 5× USB TypeA Port, which makes it easy to connect to external devices for added functionality.

Our Payment Kiosk also features a reliable barcode reader that supports 1D, 2D, mobile screen, and printed barcodes. This ensures that your customers can easily scan and pay for their purchases, making the payment process quick and convenient.

Whether you're operating a restaurant ordering kiosk, pos terminal kiosk, or a supermarket check-out kiosk, our Payment Kiosk is the perfect solution for your payment needs. It offers advanced payment options, a high-quality display, and reliable barcode scanning, making it the ideal payment system for your business.

Applications:

The Sunmi K2 payment kiosk comes with an 80mm thermal printer with auto cutter and a 24" 1080×1920 FHD G + G capacitive screen that supports 10 touchpoints. This kiosk can be installed as a wall-mounted or floor-standing unit, depending on your preference. Additionally, it supports 1D, 2D, mobile screen, and printed barcodes.

The Sunmi K2 payment kiosk is perfect for a wide variety of occasions and scenarios. For instance, it can be used as a restaurant ordering kiosk or a fast food store ordering kiosk. This kiosk has a built-in POS terminal, which allows customers to order and pay for their meals quickly and efficiently. The 80mm thermal printer with auto cutter can print out receipts for customers, making it easy for them to keep track of their orders. The 24" 1080×1920 FHD G + G capacitive screen is large enough to display menu items and prices clearly, ensuring that customers can make informed decisions about their orders.

Support and Services:

Our Payment Kiosk product comes with comprehensive technical support and services, including:

24/7 remote technical assistance

On-site maintenance and repairs

Software updates and upgrades

Regular system checks and diagnostics

Training and user manuals

Our team of experienced technicians is dedicated to providing timely and efficient support to ensure that your Payment Kiosk operates smoothly and without interruption.

Packing and Shipping:

Product Packaging:
The Payment Kiosk will be packaged securely to ensure that it arrives in good condition. It will be enclosed in a sturdy cardboard box with ample cushioning material to protect it during transit.
Shipping:
The Payment Kiosk will be shipped via a reputable courier service to ensure timely and safe delivery to your designated address.
Shipping times may vary depending on your location and shipping method selected at checkout.
