Product Description:

The Smart Payment Kiosk comes equipped with a 24" POS terminal, making it easy for customers to make payments quickly and efficiently. The kiosk's POS terminal supports a range of payment methods, including bank cards and QR code payments. This means that customers can pay using their preferred method, making the payment process more convenient for everyone involved.

The Smart Payment Kiosk is available in two installation types: wall-mounted and floor-standing. This makes it easy to find the perfect installation location for your business, whether you want to place it in a high-traffic area or keep it tucked away in a corner.

The Smart Payment Kiosk is powered by either Android 7.1 or Android 9.0 Sunmi OS, depending on your preference. This operating system ensures that the kiosk runs smoothly and efficiently, making it easy for customers to make payments quickly and without any hassle.

In summary, the Smart Payment Kiosk is a versatile and efficient payment solution for businesses of all sizes. With its 24" POS terminal and support for a range of payment methods, this payment kiosk with POS terminal is a must-have for any business looking to streamline its payment processes. Whether you choose to install it on the wall or as a floor-standing unit, the Smart Payment Kiosk is a reliable and convenient solution for all your payment needs.
