Product Description

Product Description:

This versatile kiosk comes equipped with a range of functions that make it a must-have for any business. The shelf check-out payment feature allows customers to quickly and easily pay for their purchases, while the receipt printing function ensures that they have a record of their transaction. The payment code scanning feature makes it easy for customers to pay using their mobile devices, while the passport reading and medical card reading functions make it easy to verify customers' identities and access important information.

This smart payment kiosk is also incredibly easy to use. With 1× Micro-USB Debug Port and 5× USB TypeA Port, it can be easily connected to other devices and peripherals. And with 4G 32GB of storage, it has plenty of space to store all the data it needs.

Whether you're looking for a supermarket check-out kiosk, a kiosk POS terminal 24", or a smart kiosk with 4G 32GB, the Smart Payment Kiosk is the perfect choice. So why wait? Order yours today and start enjoying the benefits of a more streamlined payment process!

Applications:

The Sunmi K2 payment kiosk has a 4GB Ram + 16GB Rom or 4GB Ram + 32GB Rom memory capacity, allowing it to store large amounts of data. It is designed to support QR code payments and can also be attached to a financial POS to support bank card payment. The kiosk can be installed on the wall or the floor, depending on your preference.

The Sunmi K2 payment kiosk comes with an app store management feature and a kiosk mode that makes it easy to use. It is ideal for use in restaurants, retail stores, supermarkets, gas stations, and hospitals. Below are some of the scenarios where this payment kiosk can be used:

Gas Station Kiosk: The Sunmi K2 payment kiosk is a perfect fit for gas stations as it supports QR code payment and can be attached to a financial POS to support bank card payment. Its installation type can be either wall-mounted or floor-standing.

Convenience Store Payment Terminal Kiosk POS: This payment kiosk is ideal for use in retail stores and supermarkets. With its app store management feature, it can provide more convenience to customers, making the payment process faster and more seamless.

Hospital: Hospitals can also benefit from the Sunmi K2 payment kiosk, especially in payment transactions. It can be installed in the billing area, allowing patients to make payments easily.

The Sunmi K2 payment kiosk is an excellent investment for businesses that require a reliable and efficient payment system. With its versatility and ease of use, it can help streamline your business operations and improve customer satisfaction.
