Public Sector Ticketing Entertainment Hotel

## Bring digital self service into all walks of life

Upgrade customer experience with different versions applicable to different scenarios

### Product Description:

The Payment Kiosk is a self-service payment ordering kiosk POS that is perfect for businesses that want to offer fast and convenient

payment options to their customers. It is user-friendly and can be easily operated by customers, allowing them to make payments quickly and securely. The kiosk is equipped with a QR POS printer payment kiosk that prints receipts and invoices, making it easy for customers to keep track of their transactions.

The Payment Kiosk is powered by a six-core 1.8GHz processor, which makes it more suitable for self-service devices. The processor ensures that the kiosk performs efficiently and can handle multiple transactions at once. It also ensures that the kiosk runs smoothly and is responsive to customer inputs.

Overall, the Payment Kiosk is a reliable and efficient self-service payment solution that is perfect for businesses that want to streamline their payment processes and enhance customer experience. It is equipped with advanced features that ensure accuracy, speed, and security, making it an ideal choice for businesses in various industries.

### Applications:

**Supermarkets:** The Sunmi K2 Payment Kiosk can be used as a self-service checkout kiosk machine, allowing customers to scan their own items, make payments using a touchscreen and QR code scanning, and print receipts. This reduces queuing times and frees up staff to focus on other tasks.

**Restaurants:** The Sunmi K2 Payment Kiosk can be used as a self-ordering kiosk machine, allowing customers to browse menus, place orders, and make payments using a touchscreen and QR code scanning. This eliminates the need for staff to take orders, reducing queuing times and improving efficiency.

**Retail Stores:** The Sunmi K2 Payment Kiosk can be used as a payment terminal, allowing customers to make payments using a range of methods, including QR code scanning and ID card reading. It also has a built-in QR POS printer, enabling customers to print receipts quickly and easily.

**Hospitals:** The Sunmi K2 Payment Kiosk can be used as a medical card reading kiosk, allowing patients to check in, make payments, and access medical records using their ID cards.

The Sunmi K2 Payment Kiosk is a high-quality product that is manufactured in China and comes with CE, FCC, and RoHS certifications. The minimum order quantity is 1, and the price can be negotiated depending on the order quantity. Packaging details include 1pc/box, and delivery time is typically 4-7 working days. Payment terms include T/T and L/C, and the supply ability is 10000 pieces per month.

The Sunmi K2 Payment Kiosk is available in two installation types: wall-mounted and floor-standing. This makes it suitable for a range of different environments and scenarios. Its functions include payment check-out, receipt printing, payment code scanning, ID card reading, and medical card reading. It is a versatile and reliable product that is perfect for any business looking to optimize its operations and improve customer satisfaction.

Keywords: Touchscreen self-service self-ordering payment terminal POS QR code kiosk, QR POS printer payment kiosk, self-service payment ordering kiosk POS.

### Support and Services:

The Payment Kiosk product technical support and services include:

- Troubleshooting and issue resolution
- Configuration assistance
- Software updates and upgrades
- Remote monitoring and diagnostics
- On-site maintenance and repair
- Technical training and resources
- Warranty and post-warranty support

## Packing and Shipping:

Product Packaging:

The Payment Kiosk will be shipped in a sturdy cardboard box to ensure maximum protection during transit. The kiosk itself will be wrapped in bubble wrap and secured with packing peanuts to prevent any damage during shipping.

Shipping:

All orders will be shipped via a reliable courier service and a tracking number will be provided once the order has been dispatched.

Shipping times will vary depending on the destination, but typically range from 2-7 business days.
