Applications:

With payment check-out, receipt printing, payment code scanning, ID card reading, and medical card reading functions, the Sunmi K2 is a versatile payment kiosk that can be used in a variety of settings. Here are some of the product application occasions and scenarios where the Sunmi K2 can be used:

Supermarkets and retail stores: The Sunmi K2 can be used as a self-service checkout kiosk machine, allowing customers to scan their items, pay for them, and print their receipts without having to queue up at a traditional checkout.

Hospitals and clinics: The Sunmi K2 can be used to read medical cards and ID cards, making it easy for patients to check in and pay for their medical services.

Restaurants and cafes: The Sunmi K2 can be used to take payment for orders, reducing the need for staff to handle cash and allowing customers to pay quickly and easily.

Public transportation: The Sunmi K2 can be used for ticketing and payment on buses, trains, and other forms of public transportation.

The Sunmi K2 is a high-quality product that comes from China with CE, FCC, and RoHs certification. The minimum order quantity is 1, and the price is negotiable. It comes with packaging details of 1pc/box and a delivery time of 4-7 working days. Payment terms can be T/T or L/C, and the supply ability is 10000 pieces per month. It has a port of 1× Micro-USB Debug Port and 5× USB TypeA Port.

Overall, the Sunmi K2 is a smart self-service checkout kiosk machine that can help businesses optimize their labor force and reduce queuing times. Its compatibility with POS systems and its smart screen outdoor design make it an ideal solution for a wide range of businesses.
