Product Description

Product Description:

The Smart Payment Kiosk comes with a range of functions that make it an indispensable tool for any business. The kiosk offers payment check-out, receipt printing, payment code scanning, ID card reading, and medical card reading. This means that it can be used in a variety of settings, including retail stores, hospitals, and government offices.

The Smart Payment Kiosk comes with a large memory of either 4GB RAM + 16GB ROM or 4GB RAM + 32GB ROM. This ensures that it runs smoothly, even with a lot of data being processed. The kiosk is designed to be fast and efficient, so customers can get in and out quickly, without any delays.

The Smart Payment Kiosk is perfect for businesses that want to offer their customers a fast and convenient way to pay for goods and services. The kiosk is easy to use, and customers can complete their transactions quickly and securely. The Smart Payment Kiosk is also ideal for businesses that want to reduce the workload of their staff. With the kiosk, customers can complete their transactions without the need for assistance from staff. This frees up the staff to focus on other tasks, improving overall efficiency.

Applications:

The Sunmi K2 is a touchscreen self-service self-ordering payment terminal POS QR code kiosk that enhances customer satisfaction and convenience. It allows customers to make payments using different methods such as cash, debit/credit cards, and QR codes. This makes the payment process fast, secure, and hassle-free.

The Sunmi K2 is manufactured in China with CE, FCC, and RoHS certifications. It has a minimum order quantity of 1 and is priced to be negotiated. Each unit is packaged in a box and has a delivery time of 4 to 7 working days. Payment terms accepted are T/T and L/C, and the supply ability is 10,000 pieces per month. It has 1× Micro-USB Debug Port and 5× USB TypeA Port.

The Sunmi K2 is a smart payment kiosk for check-out that helps businesses reduce queues and waiting times at the counter. It is easy to use and can be customized to suit the specific needs of a business. The catering version is perfect for restaurants and food outlets, while the retail version is suitable for retail stores and supermarkets. The healthcare version is ideal for hospitals.
