Product Description

Product Description:

With support for QR Code Payment and the ability to attach a financial POS to support bank card payment, the Smart Payment Kiosk is designed to provide your customers with a seamless checkout experience. No more fumbling with cash or waiting in long lines - the Smart Payment Kiosk streamlines the payment process, making it faster and more convenient for everyone. Whether you're running a busy restaurant or a bustling retail store, the Smart Payment Kiosk can help you optimize your labor force and reduce wait times. With its sleek, modern design, this kiosk is sure to impress your customers and enhance their shopping experience. In addition to its payment capabilities, the Smart Payment Kiosk can also be used for a variety of other functions, such as providing product information or displaying advertisements. For example, a sunglasses retailer could use a Smart Kiosk to showcase their latest styles and offer customers the ability to purchase directly from the kiosk. Overall, the Smart Payment Kiosk is a versatile and powerful tool that can help businesses of all kinds streamline their operations and improve the customer experience. Whether you're looking for a POS cashless payment kiosk or a smart payment kiosk for check-out, the Smart Payment Kiosk is the perfect solution.

Applications:

This payment kiosk with POS is perfect for a variety of occasions and scenarios, including:

Retail Stores: The Sunmi K2 is perfect for any retail store looking to optimize their labor force. Customers can quickly and easily make payments without the need for a cashier, reducing queuing times and increasing customer satisfaction.

Restaurants: The Sunmi K2 is ideal for restaurants looking to speed up their payment process. Customers can pay at the kiosk, reducing the need for wait staff to handle payments. The smart kiosk can also be used to display menus, allowing customers to place orders directly from the kiosk.

Hotels: The Sunmi K2 is perfect for hotels looking to streamline their check-in and check-out process. Customers can use the kiosk to check in, pay for their room, and even print out their room key. This reduces the need for staff to handle payments and check-ins, freeing them up for other tasks.

Bus Stations: The Sunmi K2 is ideal for bus stations looking to speed up their ticketing process. Customers can purchase tickets at the kiosk, reducing the need for staff to handle payments. The smart kiosk can also display bus schedules and other important information.

Airports: The Sunmi K2 is perfect for airports looking to speed up their check-in process. Customers can use the kiosk to check in, print out their boarding pass, and even pay for their luggage. This reduces the need for staff to handle payments and check-ins, freeing them up for other tasks.

The Sunmi K2 payment kiosk with POS is CE, FCC, and RoHS certified, ensuring that it meets the highest quality standards. The minimum order quantity is 1, and the price is to be negotiated. The packaging details are 1pc/box, and the delivery time is 4-7 working days. Payment terms are T/T and L/C, and the supply ability is 10,000 pieces per month.
