- Highlight: **Touchscreen Portable POS Machine**, **Label Printing Portable POS Machine**, **Label Printing Smart POS Terminal**

Product Description:

Our POS Terminal is designed with the customer in mind and can be customized with your logo, making it a perfect fit for any business. With the ability to accept a wide range of payment methods including card reader payment, this POS Terminal is perfect for any business that wants to improve their customer experience.

Our POS Terminal is a wireless device, which means that it can be used anywhere in your business, making it a convenient and practical choice. This feature is especially useful for businesses that have limited counter space or those that operate in a fast-paced environment.

In addition to its powerful hardware, our POS Terminal also comes with a free MDM system that allows you to manage and monitor your device remotely. This feature is especially useful for businesses that have multiple devices and want to ensure that they are all working efficiently.

Our POS Terminal comes with two different memory options: 2GB RAM + 16GB ROM and 3GB RAM + 32GB ROM, which means that you can choose the one that best suits your business needs.

Lastly, we provide a free SDK for integration, which means that you can easily integrate our POS Terminal into your existing systems. This feature is especially useful for businesses that want to streamline their operations and improve their overall efficiency.

In summary, our POS Terminal is a top-of-the-line wireless terminale pos that is perfect for any business that requires a reliable and efficient point of sale system. With its powerful hardware, customizable design, and free MDM system, this POS Terminal is the perfect choice for businesses that want to improve their customer experience and streamline their operations. Get in touch with us today to learn more about our POS Terminal and how it can benefit your business!
