- Payment Terms: T/T , L/C
- Supply Ability: 20000 pieces per month

Product Specification

- Using Scenario: Catering , Lottery , Retail , Logistics Ect.
- CPU: Cortex-A53 Octa-Core
- Touch Screen: Multi Touch Capacity Screen
- Feature: 80mm Printer,can Print Both Receipt And Label
- Customization: Support OEM / ODM
- Oem: Accept Customized Logo
- MDM: Free MDM System
- Battery: Removable, Lithium Polymer Battery 7.7V/3500mAh (equal To 3.85V/7000mAh)
- Highlight: **Customizable All In One POS Terminal,
3500mAh All In One POS Terminal,
3500mAh Android Payment Terminal**

Product Description

Product Description:

One of the standout features of the Terminal Pos is its removable, Lithium Polymer Battery 7.7V/3500mAh (equal To 3.85V/7000mAh). This battery is designed to provide long-lasting power, ensuring that the device can be used for extended periods of time without the need for frequent charging. This is particularly important for businesses that require a mobile pos terminal solution, such as bus ticketing services or mobile payment providers.

Another key feature of the Terminal Pos is its language support. This device is capable of supporting more than 200 languages, making it ideal for businesses that operate in multilingual environments. The device can be easily configured to display menus and instructions in the desired language, making it easy for users to navigate and use the device.

The Terminal Pos also features a 6.22" HD Screen, 1520x720, IPS, which provides a clear and vibrant display that is easy to read and navigate. This makes it ideal for businesses that require a user-friendly and intuitive interface, such as retail stores or restaurants.

Finally, the Terminal Pos comes with a free MDM system, which provides businesses with an easy and efficient way to manage their devices. This system allows businesses to remotely monitor and manage their devices, ensuring that they are always up-to-date and functioning properly.

In summary, the Terminal Pos is a highly customizable and versatile device that is perfect for businesses that require a reliable and efficient bus ticket pos terminal or pos terminal payment solution. With its removable battery, language support, HD screen, and free MDM system, this device is the ideal choice for businesses that need a mobile and user-friendly payment solution.

Applications:

The Sunmi V2S PLUS is a versatile POS terminal that can be used for a variety of applications. Its multi-touch capacity screen allows for easy navigation, while its support for more than 200 languages ensures that it can be used in virtually any country or region.

Lottery POS Terminal

The Sunmi V2S PLUS is an ideal solution for lottery sales. Its card reader payment system ensures secure transactions, while the free SDK provided by Sunmi allows for easy integration with existing lottery systems. The customizable logo option helps promote the lottery brand effectively and the compact design allows it to be easily installed in lottery stores. With CE, FCC, and RoHS certification, the Sunmi V2S PLUS is a reliable and safe choice for lottery businesses.

Bus Ticket POS Terminal

The Sunmi V2S PLUS is also a great choice for bus ticket sales. Its card reader payment system allows for quick and secure transactions, while the multi-touch screen makes it easy for bus passengers to navigate through the ticket purchase process. The Sunmi V2S PLUS is also compact and can be easily installed in bus terminals or on buses themselves.

Other Applications

The Sunmi V2S PLUS can be used for a variety of other applications as well. Its customizable logo option makes it a great choice for retail businesses, while its secure card reader payment system ensures safe transactions for both customers and businesses. With a minimum order quantity of only two and a supply ability of 20,000 pieces per month, the Sunmi V2S PLUS is also a cost-effective choice for businesses of all sizes.

Overall, the Sunmi V2S PLUS is a versatile and reliable POS terminal that can be used in a variety of applications. Its multi-touch screen, customizable logo option, and secure card reader payment system make it an ideal choice for businesses looking to streamline their sales processes.
