## Applications:

The Sunmi T3 Pro is an all-in-one POS PC desktop dual-touch screen that is perfect for businesses that require a powerful and reliable POS solution. With its NFC on-screen card reader, this product can handle all types of payment methods, making it a perfect fit for retail stores, supermarkets, restaurants, and other businesses that require a fast and secure payment solution.
The Sunmi T3 Pro comes with a 6GB RAM + 128GB ROM memory, which makes it capable of handling multiple applications and tasks simultaneously. The product's structure is made of aluminum alloy, which makes it highly durable and long-lasting. The processor of this product is Kyro-670 Qualcomm Octa-core up to 2.7GHz, which makes it fast and efficient.
This product is perfect for businesses that require a large and reliable POS terminal. The 15.6 inch EPOS all-in-one desktop POS terminal provides a large screen and dual-touch capabilities, which makes it easy to use and navigate. The product's wifi capabilities also make it highly versatile, as it can connect to 2.4GHz, 5GHz, and 6GHz networks.
In conclusion, the Sunmi T3 Pro is a highly advanced and reliable all-in-one desktop POS terminal that is perfect for businesses that require a powerful and efficient payment solution. With its NFC on-screen card reader, large screen, and fast processor, this product is perfect for businesses such as retail stores, supermarkets, restaurants, and other businesses that require a fast and secure payment solution.

## Support and Services:
