Product Description

Product Description:

The Desktop POS product boasts an 8MP front camera, single lens, that can be used to take photos of products and scan QR codes. The camera is an essential feature, especially for restaurants that rely on QR codes for payment and ordering. The camera quality is excellent and can capture clear images, even in low light environments.

The NFC On Screen card reader allows customers to pay using their credit or debit cards with ease. The card reader is built into the screen, making it easy for customers to make payments without leaving their seats. The card reader is also fast and reliable, reducing the waiting time for customers.

The Desktop POS product is made of high-quality aluminium alloy, making it durable and long-lasting. The structure is designed to be compact and sleek, making it ideal for restaurants with limited counter space. The design is also aesthetically pleasing, adding a touch of elegance to any restaurant.

Our Desktop POS product comes with a 15.6-inch touch screen display, providing users with a large and clear view of their operations.

The touch screen interface makes it easy for users to navigate and use the product, even if they have no prior experience with POS systems. The display is also ideal for showcasing products and promotions, making it an excellent marketing tool for restaurants.

Our Desktop POS product is equipped with Wi-Fi capabilities, supporting 2.4GHz, 5GHz, and 6GHz frequencies. This makes it easy for restaurants to connect to the internet and access their cloud-based POS system. The Wi-Fi connection is also fast and reliable, ensuring that users can access their data without any delays.

In summary, our Restaurant Desktop POS system is an excellent choice for restaurants looking to streamline their operations and improve their customer experience. The product is designed to be user-friendly and efficient, reducing the waiting time for customers and making it easy for staff to manage their operations. The product is also durable and long-lasting, making it a worthwhile investment for any restaurant. Order your wholesale 15.6 inch display pos system today and take your restaurant operations to the next level!

Features:

Card reader	NFC On Screen
Operation system	Android 13 Sunmi OS
Camera	Front Camera, Single Lens,8 MP
Second display	15.6" And 10.1"
Structure	Aluminium Alloy
Display	15.6" FHD 1920*1080 400nits, Anti-fingerprint (AF)
Feature	Hidden Cabling, Flipable Main Display

Applications:

The T3 Pro is designed to be a versatile and reliable POS system that can handle a wide variety of tasks. It comes with a second display option of 15.6" or 10.1" that can be used to display product information, promotions, or other important information for customers. This makes it an ideal choice for businesses that need to display a large amount of information in a small space.

Thanks to its 6GB RAM and 128GB ROM, the T3 Pro has enough memory to handle even the most demanding applications. It runs on the Android 13 Sunmi OS, which is an advanced operating system that is optimized for use in POS systems. This ensures that the T3 Pro is fast, stable, and reliable, even when running multiple applications at once.

The T3 Pro is also equipped with a 2.4GHz & 5GHz & 6GHz wifi connection, which ensures that it can connect to a variety of networks and devices. This makes it easy to integrate with other hardware and software systems, including barcode scanners, receipt printers, and other peripherals.

In terms of certification, the T3 Pro has been certified by CE, FCC, and RoHS. This ensures that it meets all relevant safety and environmental standards, making it a safe and environmentally-friendly choice for businesses.

The T3 Pro is available for purchase in small quantities, with a minimum order quantity of one sample. The price is negotiable, and it comes in a standard carton package. Delivery time is typically 5-7 working days, and payment terms are T/T. Sunmi has a supply ability of 10000 pieces per month, making it easy to purchase additional systems as needed.

In conclusion, the Sunmi T3 Pro is a powerful and versatile POS system that is perfect for a wide range of business scenarios. Whether you're running a retail shop, supermarket, or restaurant, the T3 Pro is the perfect choice for your POS needs.
