Product Description

Product Description:

With a 15.6" FHD 1920*1080 400nits display, this Desktop POS product offers a crystal-clear view of your products and services. The Anti-fingerprint (AF) coating ensures that your screen stays clean and clear, even after multiple uses. Our Desktop POS product comes equipped with a front camera that has a single lens and an 8 MP resolution. This allows for easy scanning of barcodes and QR codes, making the checkout process even more efficient. The structure of this Desktop POS product is made of Aluminium Alloy, which makes it lightweight and easy to move around. The hidden cabling feature ensures that you have a clean and organized workspace, free from clutter and tangled wires. One of the unique features of this Desktop POS product is its flipable main display. This allows you to easily switch between customer-facing and employee-facing modes, making it easier to process transactions and provide a better customer experience. Our Desktop POS product supports both 2.4GHz and 5GHz Wi-Fi networks, as well as the new 6GHz network, providing fast and reliable connectivity to the internet. In conclusion, our Desktop POS product is the perfect choice for any business looking for a complete POS system that is efficient, reliable, and easy to use. Its dual screen design, hidden cabling, and flipable main display make it a cash cow POS system that will help your business grow and succeed.

Display	15.6" FHD 1920*1080 400nits, Anti-fingerprint (AF)
Feature	Hidden Cabling, Flipable Main Display
Wifi	2.4GHz & 5GHz & 6GHz
Operation system	Android 13 Sunmi OS

Structure	Aluminium Alloy
Processor	Kyro-670 Qualcomm Octa-core Up To 2.7GHz

Applications:

The Sunmi T3 Pro is also great for use in hospitality settings such as restaurants and cafes. Its intuitive interface and easy-to-use software make it simple for staff to take orders, process payments, and manage inventory. The NFC On Screen card reader is a convenient feature that allows customers to pay quickly and easily using their mobile device.

The Sunmi T3 Pro is designed with durability in mind. Its aluminium alloy structure ensures that it can withstand the rigours of daily use in busy commercial environments. The anti-fingerprint (AF) coating on the display helps keep the screen clean and clear, even when it's touched frequently.

Certified by CE, FCC and RoHs, the Sunmi T3 Pro meets strict quality standards and is safe to use. It is also WiFi enabled, supporting 2.4GHz, 5GHz and 6GHz frequencies. This makes it easy to connect to the internet and to other devices.

With a memory of 6GB RAM + 128GB ROM, the Sunmi T3 Pro can easily handle multiple tasks at once. This makes it ideal for use as a desktop pos terminal in busy retail or hospitality settings.

The Sunmi T3 Pro is available for purchase with a minimum order quantity of one sample. Pricing is negotiable and packaging is in standard carton. Delivery time is 5-7 working days, and payment terms are T/T. The supply ability of 10000 pieces per month ensures that businesses can easily purchase this desktop pos terminal when they need it.

Overall, the Sunmi T3 Pro is a high-quality and versatile desktop pos terminal that is perfect for a wide range of scenarios and occasions. It is designed to be durable, easy to use, and packed with features that make it ideal for use in busy commercial environments. If you're looking for a reliable and efficient desktop pos terminal, the Sunmi T3 Pro is an excellent choice.
