Product Description

Product Description:

Our POS System is designed to be highly versatile, with multiple connectivity options including Wi-Fi, Bluetooth, and Ethernet. This gives you the flexibility to choose the best connection method for your business, ensuring that you can easily integrate our system with your existing infrastructure.

One of the standout features of our POS System is the flipable main display. This innovative design allows you to easily switch between customer-facing and employee-facing modes, giving you greater flexibility when handling transactions. The display itself boasts a stunning 1920x1080 resolution, ensuring that your customers will always see your products in the best possible light.

Our POS System also comes with a free SDK, giving you the ability to customize the system to meet your specific needs. This means you can easily add new features as your business grows, ensuring that our system will always be able to keep up with your changing requirements.

Our POS System is perfect for businesses in a wide range of industries, including spa and beauty stores. With its advanced features and intuitive interface, our system is the ideal way to manage your transactions and keep track of your inventory. Whether you're looking for a spa POS system or a till cash machine POS system, our solution is the perfect choice.

Overall, our POS System is the perfect solution for businesses looking to streamline their operations and improve their customer service. With its advanced features, multiple connectivity options, and free SDK, our system is the ideal way to take your business to the next level.
