- Highlight: **Lithium Battery Smart POS Terminal, Customized Smart POS Terminal, Android Mobile POS Tablet**

Product Description

Product Description:

The Smart POS terminal is powered by an Android handheld system, which allows for easy customization and integration with a range of software solutions. With a 10.1 inch tablet display, this smart POS terminal provides a clear and user-friendly interface for both customers and merchants.

The Smart POS comes equipped with a removable lithium battery, ensuring that it can operate for extended periods of time without requiring a recharge. For added convenience, a charging cradle is available as an optional extra, ensuring that the Smart POS is always ready to go when you need it.

The Smart POS also features a professional scanner, which supports integrated 1D/2D barcode scanning. This feature makes it easy to scan barcodes from a range of sources, including product labels, coupons, and loyalty cards. With this scanner, merchants can quickly and accurately add items to a sale, making the payment process faster and more efficient.

Finally, the Smart POS comes with a built-in 58mm and 80mm thermal printer, which offers a range of printing options for receipts, invoices, and other important documents. This feature helps to ensure that customers receive accurate and detailed records of their transactions, while also providing merchants with a reliable and efficient way to manage their sales data.

| Description | An android smart pos machine with a hand strap for easy carrying and use. It has a built-in thermal printer, supports multiple payment options including Mobile Wallet and NFC, and runs on the Android 13 Sunmi OS. It is an all-in-one device that can be used for tableside ordering, inventory check, and gas station applications. |

Applications:

The Sunmi V3 mix is the ideal choice for tableside ordering, inventory check, and gas station applications. Its durable design and high-quality construction make it perfect for use in even the busiest of environments. With its certification in CE, FCC, RoHs, and MSDS, you can be sure that this smart pos terminal is reliable and safe to use.

The Sunmi V3 mix comes with mobile wallet and NFC payment options, making it easy for customers to pay for their purchases using their preferred method. Its Qualcomm Hexa-core processor ensures that the device runs smoothly and quickly, even when handling complex transactions.

With a minimum order quantity of 10, the Sunmi V3 mix is available at a negotiable price. It comes with packaging details of 1pc/box, 5pcs/carton, and a delivery time of 4-7 working days. Payment terms include T/T and L/C, and the device has a supply ability of 15000 pieces per month.

Overall, the Sunmi V3 mix is a smart pos terminal that is perfect for any business that needs a reliable and efficient payment solution. Its all-in-one design and professional scanner make it the perfect choice for a wide range of applications, while its mobile wallet and NFC payment options ensure that customers have a hassle-free payment experience.
