Product Description

Product Description:

The Mobile POS runs on a powerful 7.2V/2600mAh battery that provides long-lasting performance and ensures that your business never misses a sale. With this battery, you can use the Mobile POS all day without worrying about running out of power.

The Mobile POS operates on SUNMI OS, which is based on Android 13. This operating system is intuitive and easy to use, making it a great choice for businesses that want a simple yet effective point-of-sale solution. With SUNMI OS, you can customize the Mobile POS to suit your specific business needs and preferences.

The Mobile POS comes with 4GB RAM+32GB ROM, which provides ample storage space for all your business data and records. This means that you can store all your sales data, customer information, and inventory records in one place, making it easy to keep track of your business operations.

In addition, the Mobile POS comes with a 1-year warranty, giving you peace of mind and ensuring that you can rely on this handheld pos billing printer for years to come. With its durable design and long-lasting performance, the Mobile POS is a great investment for any business looking for a reliable and efficient point-of-sale system.

Overall, the Mobile POS is a powerful and versatile pos android handheld that is perfect for small businesses and entrepreneurs. With its intuitive operating system, ample storage space, and long-lasting battery, the Mobile POS is a great choice for businesses that want an efficient and reliable point-of-sale system that can help them grow and succeed.
