Product Description

Product Description:

Our Mobile POS is designed to make transactions quick and easy. With its handheld smart POS design, you can take payments on the go, making it perfect for businesses that need to move around frequently. The device comes with a powerful battery that can last up to several hours, so you won't have to worry about running out of power in the middle of a busy day. The battery is a 7.2V/2600mAh rechargeable lithium-ion battery that can be charged using a standard USB cable.

The Mobile POS is also highly customizable, with support for multiple languages, including English, Spanish, French, Chinese, and more. This makes it easy to use for both you and your customers, no matter where you are in the world.

The CPU of the Mobile POS is a Qualcomm Hexa-core processor, which means it can handle even the most demanding applications with ease. You can rest assured that your device will always be fast and responsive, no matter how busy your business gets.

Our Mobile POS also comes with a 1-year warranty, so you can have peace of mind knowing that your investment is protected. If you run into any issues with your device, simply contact our customer support team, and we'll be happy to help.

Overall, our Mobile POS is the perfect solution for businesses that need a handle POS that is both powerful and portable. So why wait? Order your Mobile POS today and start taking your business to the next level!
