Product Description

Product Description:

The Mobile POS comes equipped with a 58mm Thermal Printer and an 80mm Thermal Printer, giving you the flexibility to choose the printer that best suits your business needs. The printers are designed to print high-quality receipts quickly and efficiently, allowing for seamless transactions.

Powered by a Qualcomm Hexa-core CPU, this Handheld POS System delivers high-performance processing and is capable of handling demanding applications with ease. The SUNMI OS, based on Android 13, provides a user-friendly interface that is easy to navigate, making it an ideal choice for businesses that require a POS Android Handheld.

The Mobile POS is equipped with a 7.2V/2600mAh battery, providing long-lasting performance that ensures your business is always up and running. The battery is designed to last an entire shift, eliminating the need for frequent charging, making it an ideal solution for businesses that require a portable POS system.

The Handheld Smart POS is an ideal solution for businesses in various industries, including hospitality, retail, and service industries. It is a reliable, efficient, and user-friendly POS system that streamlines transactions and improves customer experience. With its fast print speed, high-performance processor, and long-lasting battery, this Mobile POS is a must-have for any business looking to improve their point of sale system.
