Applications:

Retail Stores

The Sunmi P2 Smartpad is ideal for retail stores that need a reliable and efficient pos with payment system. Its multi-option payment support feature allows customers to pay using NFC, Magstripe, and IC card. This pos terminal payment handheld is also equipped with a quick response barcode scanner, making it easier for merchants to process transactions.

Restaurants and Cafes

For restaurants and cafes, the Sunmi P2 is a great option for a mobile payment machine portable android pos system. Its lightweight and compact design make it easy for servers to take orders and process payments at the table. The pos with payment feature also allows customers to split their bills or pay using different payment methods.

Events and Exhibitions

The Sunmi P2 Smartpad is also suitable for events and exhibitions that require a payment system. Its portable design allows merchants to easily set up their payment station anywhere. The product's certification, including CE, FCC, RoHs, and MSDS, ensures that it meets safety and environmental standards.

Hotels and Resorts

Hotels and resorts can benefit from the Sunmi P2's multi-option payment support, making it easier for guests to pay using their preferred method. The pos terminal payment handheld is also equipped with a high-capacity battery, allowing for long hours of use without worrying about power supply.

The Sunmi P2 Smartpad comes with a PCI PTS 6.x certification, ensuring that it meets payment security standards. It runs on Android 9.0 Sunmi OS, providing a stable and user-friendly interface for both merchants and customers. With a minimum order quantity of 10 and a supply ability of 15000 pieces per month, this product is perfect for businesses of any size. Packaging details include 1pc/box and 10pcs/carton, with a delivery time of 4-7 working days. Payment terms are available through T/T and L/C, with the price to be negotiated.
