## Product Description

### Product Description:

The Smart POS product is IP53 Rated, making it a durable and reliable payment processing solution. The P2 SMARTPAD Can Sustain Liquid Spilling Or Splashing, ensuring uninterrupted service even in challenging environments.

The device is powered by Android 9 Sunmi OS, a highly intuitive and user-friendly operating system that is ideal for payment processing. The operating system is designed to be easily navigable and customizable, allowing business owners to tailor their payment processing experience to their specific needs.

The Smart POS product offers a range of payment options, including Mobile Wallet, NFC, Bank Card, and Credit Card. This makes it a versatile payment processing solution that can be used in a variety of settings, from retail stores to restaurants and cafes.

The Smart POS product is also available in a 10.1 inch tablet pos smart version, which provides a larger screen and more advanced features for businesses with more complex payment processing needs. For those who need a more compact solution, the Smart POS product is also available in a smart mini plus pos version.
