### Applications:

The P2 Smartpad is a versatile device that can be used in a variety of different scenarios. For example, it is perfect for use in retail shops where customers need to make quick and easy payments. With its 4 inch HD touch screen, the P2 Smartpad makes it easy to enter payment information, and its Cortex-A53, Quad-core processor ensures that transactions are processed quickly and securely. In addition to retail shops, the P2 Smartpad is also ideal for use in banks. Its financial Pinpad allows customers to securely enter their PIN numbers, and its certification (CE, FCC, RoHs, MSDS) ensures that it meets all of the necessary security standards. This makes it an excellent choice for banks that want to provide their customers with a secure and efficient payment processing experience. The P2 Smartpad is available for purchase with a minimum order quantity of 10 units. The price is negotiable and delivery time is between 4-7 working days. Payment terms include T/T and L/C, and the supply ability is 15000 pieces per month. The product comes with a 1pc/box packaging and 10pcs/carton packaging details. Overall, the Sunmi P2 Smartpad is a powerful and reliable smart POS terminal that is perfect for a wide range of different applications. Whether you are a retailer or a bank, the P2 Smartpad can help you streamline your payment processing and improve your customer experience. So why not order your P2 Smartpad today and start enjoying the benefits of this top-quality smart POS terminal?
