## Product Description

### Product Description:

One of the standout features of the Pos Handled is its ability to be customized. With the ability to accept customized logos and colors, this terminal can be tailored to match your brand and aesthetic. This is a great way to make your business stand out and create a consistent image throughout all your business operations.

The Pos Handled runs on the latest Android operating system, with support for both Android 12 and 13. This ensures that you have access to the latest features and updates, keeping your business running smoothly and efficiently. The Android operating system is also user-friendly and familiar, making it easy for your staff to use right out of the box.

Another great feature of the Pos Handled is its support for NFC. This allows you to accept contactless payments, which are becoming increasingly popular among consumers. With NFC support, you'll be able to offer your customers a more convenient and efficient payment option, which can lead to increased customer satisfaction and loyalty.

Finally, the Pos Handled comes with an optional MDM system, which offers additional security and management features. This system allows you to remotely manage your terminals, ensuring that they are always up-to-date and secure. It also allows you to monitor usage and track transactions, giving you greater insight into your business operations.

In conclusion, if you're looking for a versatile and customizable mini pos terminal, the Pos Handled is the perfect solution for you. With its wireless connectivity, NFC support, and optional MDM system, this terminal is the perfect way to streamline your payment processing and improve your business operations. So why wait? Upgrade to the Pos Handled today and take your business to the next level!
